U.S. FDA[1] Compliance Certificate
XYLAN® 8253/N0938 Black Metallic Topcoat over
XYLAN® 8294/N0937 Black Primer (EU)

FDA Compliance: 21 CFR 175.300 "Resinous and Polymeric Coatings."

For all commercial and noncommercial food-contact applications operating to temperatures equal to or less than 500°F (260°C), these coating systems are permitted for use in contact with food in compliance with the Federal Food, Drug, and Cosmetic Act (the "Act") and all applicable regulations

This includes 21 CFR[2] 175.300, provided it is processed in accordance with Whitford's instructions and used in compliance with the Act and regulations. It is not applicable to material(s) from other vendors to which this coating system is applied, i.e., metal pretreatments, platings, primers, or metal substrata. The appropriateness of use in food-contact applications and the FDA status of metal pretreatments, platings, primers, or metal substrata must be obtained from the manufacturers or vendors of these materials, or their scientific and / or legal counsel.

Yours sincerely
For the PPG Industrial Coatings,

Hilda
