

—Inductive smart material rack

Specification items	Technical Parameters
Size	2240*400*1950mm
Material	Carbon steel
Color	White
Power	AC220V50Hz
Rated power	120W
Communication method	RJ45 network port+WiFi
Single layer loadbearing	≤100Kg
Mobile material rack(car) solid	Have
Determined way	Fuma wheel level adjustment
Anti-static measures	Main body anti-static paint
Working environment	-20~+40°C/10%~90%RH
Voice broadcast	Have

Product model	Specification description
HJGD1400S	Can store 1,400 rolls of 7-inch width ≤16mm roll materials
HJGD250S	Can store 250 rolls of materials with a width of 13 inches ≤37mm, and the top layer can store 15-inch materials
HJGD175S	Can store 175 rolls of materials with a width of 7 inches ≤62mm, and the top layer can store 15-inch materials.
HJMV506S	Mobile material rack, matched with AGV, designed according to actual production material demand
Customized model	Designed according to actual storage requirements, and can be matched with modules of any width
