## 北京包美机械

Poemy Machinery

关于企业  
ABOUT THE GROUP

北京包美机械 上海包美机械  
Beijing Poemy Machinery Co., Ltd/Shanghai Poemy Machinery Co., Ltd

1. 经营范围：  
全自动包装机械和以及包装机械解决方案类服务综合供应商;我们可以提供全自动面膜机,卡片式包装机,泡罩机,单剂量包装机(次抛类产品包装机),小袋包装机,杯装类产品包装机,卫生类产品包装机,装箱机,自动化单机或整线。

(1) Main products:  
Comprehensive supplier of fully automatic packaging machinery and packaging machinery solutions.we can provide: full auto packaging equipment such as facial mask machine, easysnap packaging machine, blister packaging machine, unit dose packaging machine, sachet packaging machine,cup products packaging machine, sanitary napkin packaging machine, cartoning machine, Automated stand-alone machine or complete line,etc.

2. 技术实力：  
公司技术团队原就职于日本知名包装机械公司,成立之初即确定以研发为主的创新型企业。

(2) Technical strength:  
The company's technical team originally worked for a well-known Japanese packaging machinery company, and Poemy was determined to be an innovative enterprise focusing on research and development from the beginning.

3. 项目领域:  
公司在食品、医药、化妆品、日化等行业拥有多年的包装机械制造经验和包装机械解决方案经验。

(3) Project area:  
The company has many years' experience in packaging machinery manufacturing and packaging machinery solutions in the food, pharmaceutical, cosmetics, daily chemical and other industries.

4. 我们的荣誉:  
国家高新技术企业,拥有多项实用性发明专利。

(4) Our Honor:  
A high-tech enterprise nationally certified by our government; possesses a number of practical invention patents.

荣誉证书  
CERTIFICATE OF HONOUR

# SH-120全自动小样灌装机

SH-12 Full automatic sample filling machine/unit dose packaging machine

## 单面鼓双面鼓兼容的全自动小样灌装机

Single-sided convex and double-sided convex compatible fully automatic sample filling machine

## 薄膜冷压成型 自动灌装模切

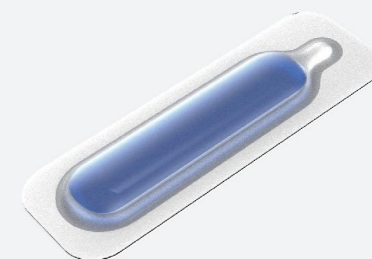

The film is cold pressed to form the desired model Automatic filling and film cutting

双面成型小样灌装机是针对小样产品的生产而开发的专用设备。设备使用铝塑膜为原料，可实现铝塑膜双面冲压成型成立体形状的容器，并进行内容物灌装。设备的生产工艺流程为多次冲压、封接、灌装、封口、整版模切、产品取出等。根据不同的产品规格外形，可以进行排版，一版可实现多个产品的生产。

The double-sided convex forming sample filling machine is special designed for the production of sample products. The equipment uses aluminum-plastic film as raw material and can realize double-sided stamping of aluminum-plastic film to form three-dimensional container, then filling the product into containers. The production process of the equipment is multiple stamping, sealing, filling, sealing, full-page film cutting, finished product removal, etc. Typesetting can be carried out according to different product specifications and shapes, and one version can realize the production of several products.

Servo motor drives ceramic pump to fill liquid, filling accuracy ±5‰

# ESP-330卡片式产品包装机

ESP-330 easy snap packaging machine

## 单手掰开卡片式产品包装机

One hand opening card type product packaging machine

## 软硬膜复合包装 硬膜切掰断线 轻松折开

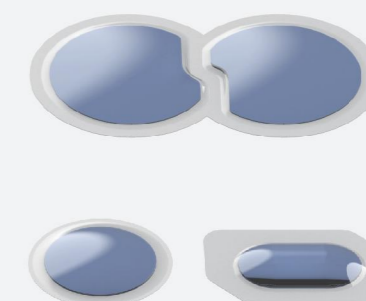

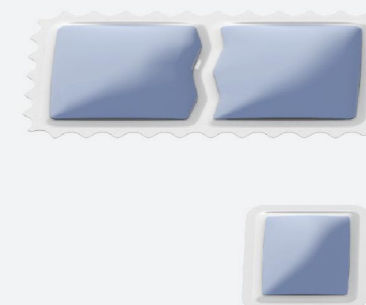

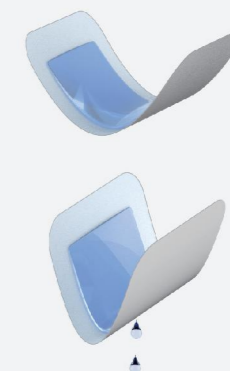

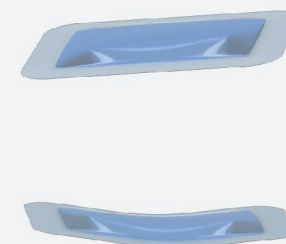

Soft and hard film composite packaging  
cutting the opening line in the hard film easily opening

单手掰开产品是一种针对流体或半流体物料的新颖包装形式，可用于化妆品、食品等相关行业。其特点是可实现产品单手掰开，物料方便挤出，且产品方便携带。ESP-330卡片式产品包装机是针对单手掰开产品的生产而开发的。设备的生产工艺流程为硬膜切线、软膜成型、灌装、封口、整版模切、产品取出等。根据不同的产品规格外形，可以进行排版。包装外观可以根据需求设计为各式异形。

One hand opening product is a novel packaging form for fluid or semi-fluid materials, which can be used in cosmetics, food and other related industries. Its characteristics are that the product can be open by one hand, the liquid or semi-liquid can be squeeze out easily, also the product is convenient to carry. The ESP-330 card type product packaging machine is designed for the single hand opening products. The production process of the equipment includes cutting opening line in the hard film, soft film forming, filling, sealing, full plate cutting, finished product removal, etc. Typesetting can be made according to the different products shape. The packaging appearance can be designed according to the requirements of various special shapes.

生产过程避免手工接触

不存在传统生产工艺中的质量风险

The production process avoids manual contact and does not have the quality risks of traditional production processes.

# MS-120全自动面膜包装机

MS-120 fully automatic beauty facial mask packaging machine

## 从卷布到成品的全自动面膜机

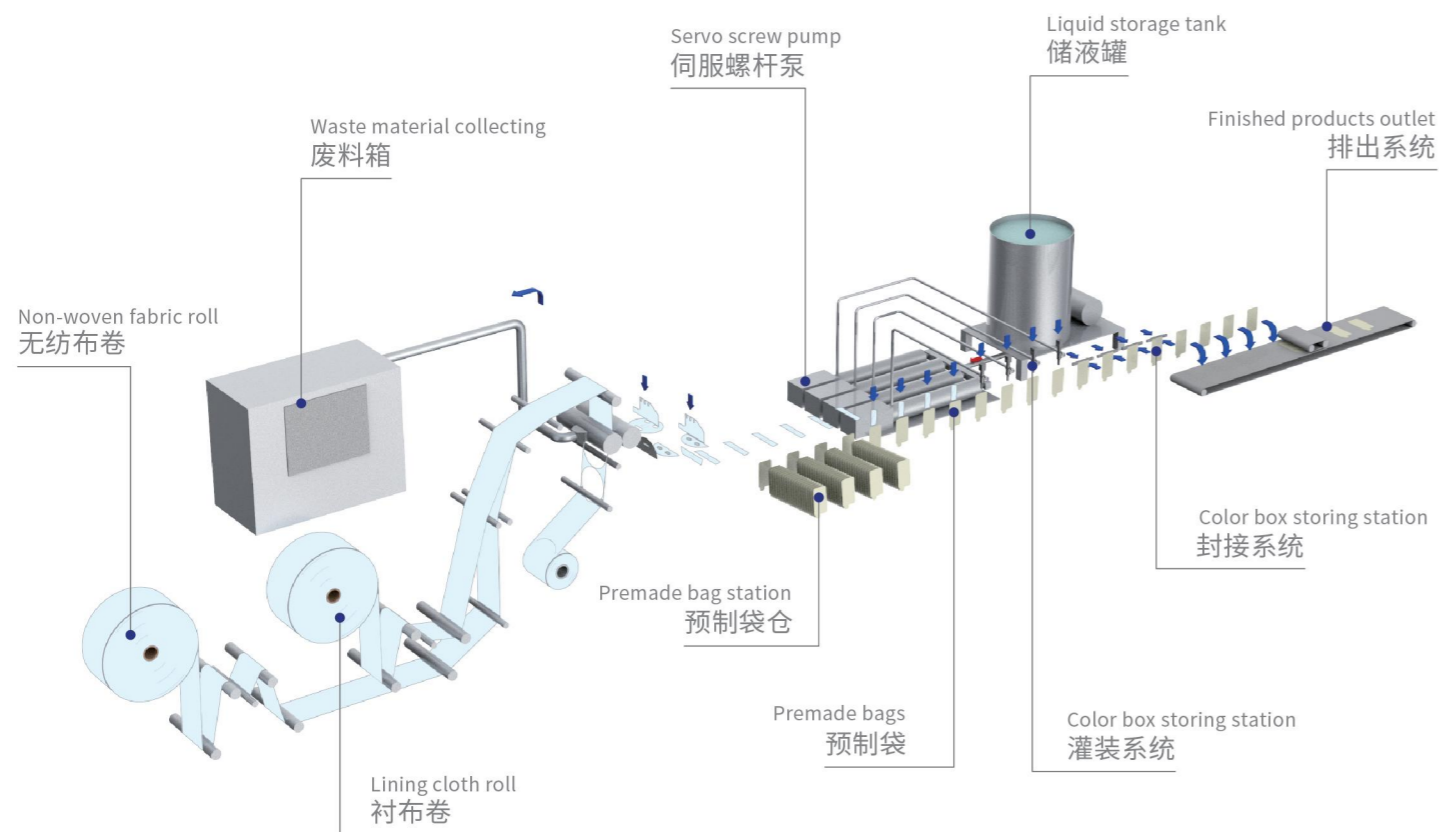

Fully automatic beauty facial mask machine  
which can complete from non-woven fabric rolling to finished product

## 自动裁切折叠入袋 自动灌装封口

Automatic cutting ,folding,bagging,filling and sealing

MS-120全自动面膜包装机涵盖面膜生产过程中所有工序：面膜布裁切、面膜布折叠、面膜布装袋、精华液灌装和封口，可实现面膜的全自动化生产，有效节省劳动力并且提升生产效率。设备采用卷布为原材料，兼容一层或两层卷布。  
设备采用滚切刀对膜布进行在线裁切，脸型输出的同时，对废料进行回收收集。设备采用多轴伺服同步控制驱动。可以配置视觉检测装置对膜布进行实时缺陷检测，及时排出问题产品。可以根据不同的面膜折叠方式，选择匹配的机型。灌装系统采用德国进口螺杆泵，物料兼容性广且灌装精度高。

MS-120 fully automatic facial mask packaging machine covers all processes in the beauty facial mask production: cutting non-woven fabric into mask shape, mask folding, mask bagging, essence filling and sealing, which can realize fully automated production of facial masks, effectively saving labor and improving production efficiency. The equipment uses rolled fabric as raw material and is compatible with one layer or two layers of rolled non-woven fabric.  
The equipment uses a rolling cutter to cut the mask cloth online. While outputting the face shape masks, the waste materials are collected. The equipment adopts multi-axis servo synchronous control drive. Can be equipped with visual inspection device so as to detect defects and eliminate problematic products in time. You can choose suitable machines models according to different mask folding methods.The filling system uses a screw pump imported from Germany, which has wide material compatibility and high filling accuracy.

模块化、自动&手工兼容、泵头内塞兼容、自动吹洗

Modular, automatic & manual compatible, pump head and inner plug compatible, automatic blowing and sucking function

MFB-600自动灌装机采用全伺服控制，模块化设计，设备充分考虑了自动生产和手工生产结合的方式。  
设备包括：模具回流系统、自动吹洗装置、伺服灌装系统、自动压内塞系统、自动旋泵头系统、自动旋盖或压盖系统、产品取出系统8个模块配合完成护肤产品的自动生产。  
设备预留了喷码机安装工位和不良产品检查流水线。  
MFB-600适用于护肤类产品及其类似产品的自动生产。  
MFB-600 automatic filling machine adopts full servo control and modular design. The equipment is fully considered the combination of automatic production and manual production.  
Equipment includes: molds return system, automatic blowing and sucking purging device, servo filling system, automatic plug pressing system, automatic screwing pump head system, automatic cap screwing or cap pressing system, and the finished products removal system, eight modules cooperate to complete the automatic production of skin care products.  
The equipment has reserved inkjet printer installation station and defective product inspection station.  
MFB-600 is suitable for the automatic production of skin care products and similar products.

## 产品特点 Product Features

### MFB-600型灌装机

HC-600型装盒机带有内衬模块,对产品充分保护,可适用于矩形6面体产品。机械凸轮与电子凸轮共同应用,动作轻柔,方便高效,人性化的设计让机器代替了手工作业,降低人工成本的同时,大大提高了生产效率。

直线模块化设计,各模块组合 灵活

Linear modular design,  
flexible combination for each modules

定制化 模块盘对产品进行输送,

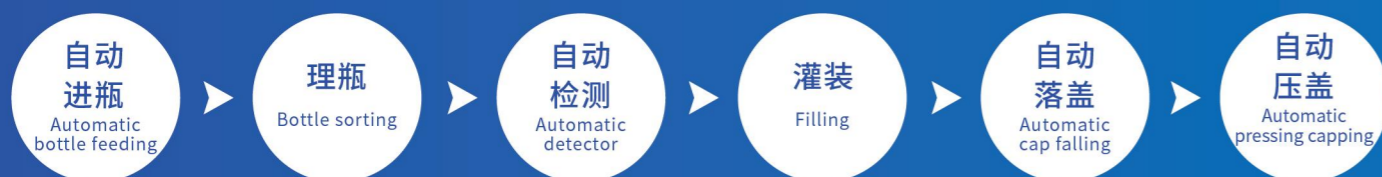

尺寸大小在线调节

Customized modular trays convey products,  
and the size can be adjusted online

### HC-600 cartoning machine

The HC-600 cartoning machine is equipped with a lining module, which fully protects the product and can be used for packing rectangular hexahedron products. Mechanical cam and electronic cam are used together, and the machine action gently, conveniently and efficiently, the humanized design allows machines to replace labor. While reducing labor costs, it also greatly improves production efficiency.

HC-90系列全自动装盒机，涵盖了自动上料、自动折内衬、自动装盒三部分。分别完成产品的自动上料、内衬的自动成型和自动折叠、产品和内衬自动装盒、自动封盒。

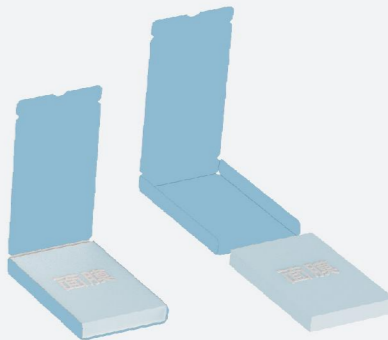

HC-90全自动装盒机自动化程度高，采用全伺服驱动结构，具有操作便捷、兼容性强的特点。广泛的应用在面膜、冷敷贴、暖宝宝、膏药等产品的自动装盒。

HC-90 series fully automatic cartoning machine includes three parts: automatic materials feeding, automatic lining folding, and automatic cartoning. It can respectively complete the automatic feeding materials, automatic forming and folding linings, automatic cartoning products and and linings ,automatic sealing boxes. The HC-90 fully automatic cartoning machine has a high level of automation and uses a fully servo-driven structure, which is characterized by easy operation and strong compatibility. Widely used in automatic cartoning for beauty facial masks,cold compress patch, body warmer patch, plasters and other products.

# ST-30自动条包机

ST-30 automatic strip packaging machine

选配压力罐、全304设计、侧三边封可选、易撕口

Optional pressure tank, full 304 design, optional three-side sealing, easy to tear

包装物效果图  
Packaging renderings

ST-30条包机适用于化妆品、药品、食品等产品的自动生产，采用全伺服控制，卷膜生产，完成产品定型、膜卷成型、自动封接、自动灌装和自动裁切功能。

粘稠物料可以选配压力罐装系统；

可选做侧面三边封产品；兼容定长模式和色标模式；

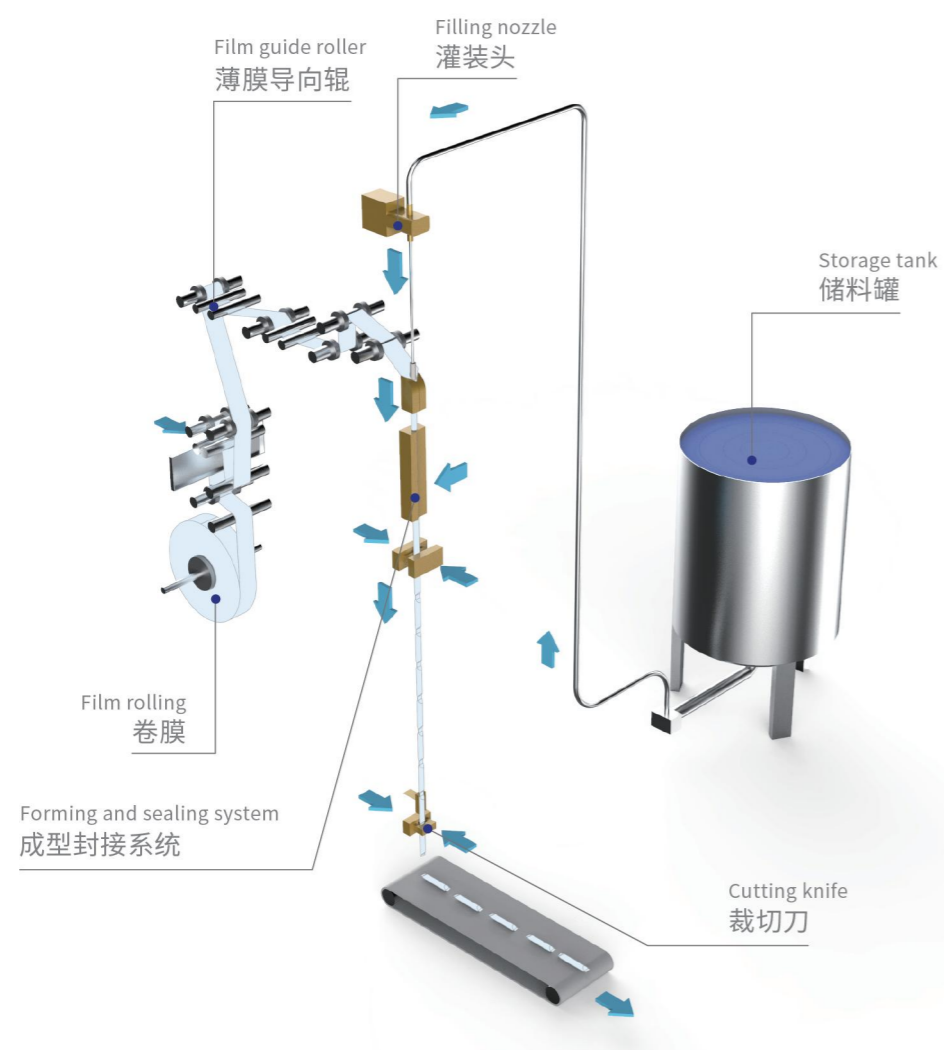

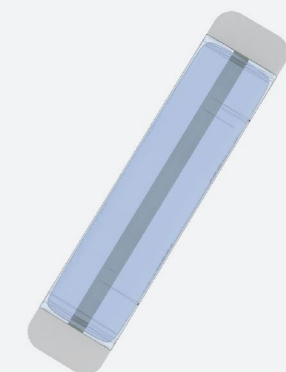

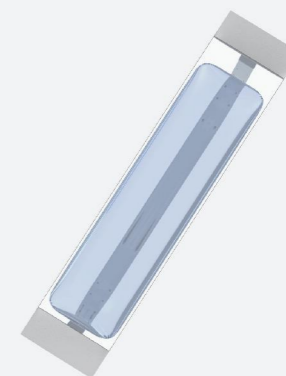

配置易撕口刀，可选形状。

The ST-30 automatic strip packaging machine is suitable for the automatic production of cosmetics, pharmaceuticals, food and other products. It adopts full servo control, rolled type film production, complete product finalization, rolled type film forming, automatically align sealing, automatic filling and automatic cutting.

Viscous materials can be equipped with an optional pressure canning system;

Optional three-side sealing products; compatible with length-setting mode and color-coded mode;

Equipped with easy-tearing knife, shape of the easy tear is optional.

SC-30拧盖机

SC-30 capping machine

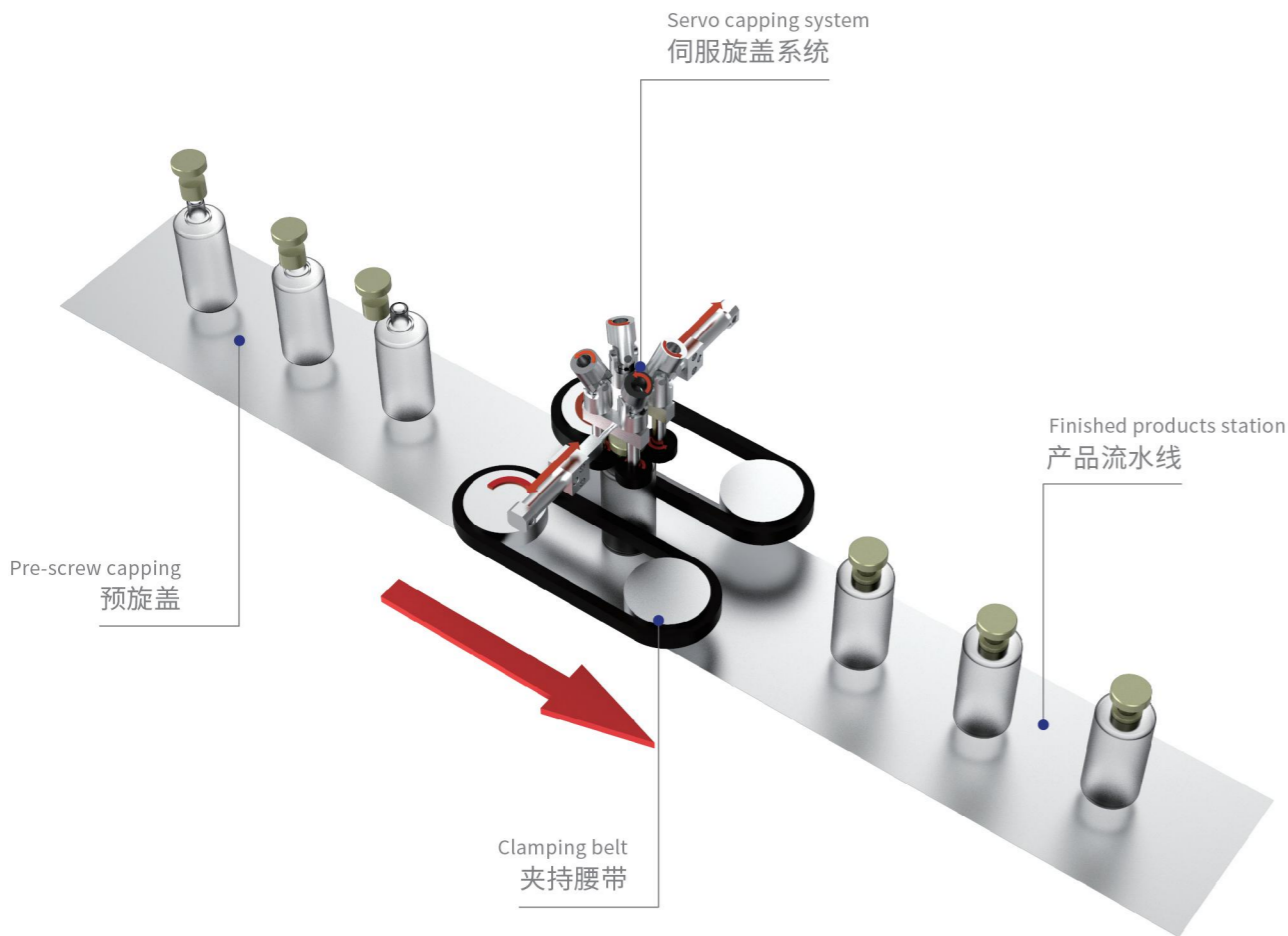

小巧便捷、在线生产、扭矩控制、电动调节

Small and handy, online production, torque control, electric adjustment

SC-30拧盖机针对在线生产设计，小巧便捷，可以灵活转移，适用于多产品、多生产线的情况。  
设备采用三轴伺服控制+2个自动尺寸调整的结构，旋盖扭矩精度高，操作简单。  
适用于滴管、水乳、膏霜、洗护等产品的自动拧盖。可以生产泵头产品，根据需要可以对泵头进行定位生产。

The SC-30 capping machine is designed for online production. It is small and handy, can be flexibly moved, and is suitable for multiple products and multiple production lines.  
The equipment adopts a three-axis servo control + 2 automatic size adjustment structure, with high capping torque accuracy and easy operation.  
Suitable for automatic capping of droppers, lotions, creams, cleansers and other products. Pump head products can be produced and based on the requirements the pump heads can be positioning during production.

# SNP-60 全自动套袋包装机

SNP-60 fully automatic bagging and packaging machine

## 在线制袋套袋封口包装机

Online bag making and sealing packaging machine

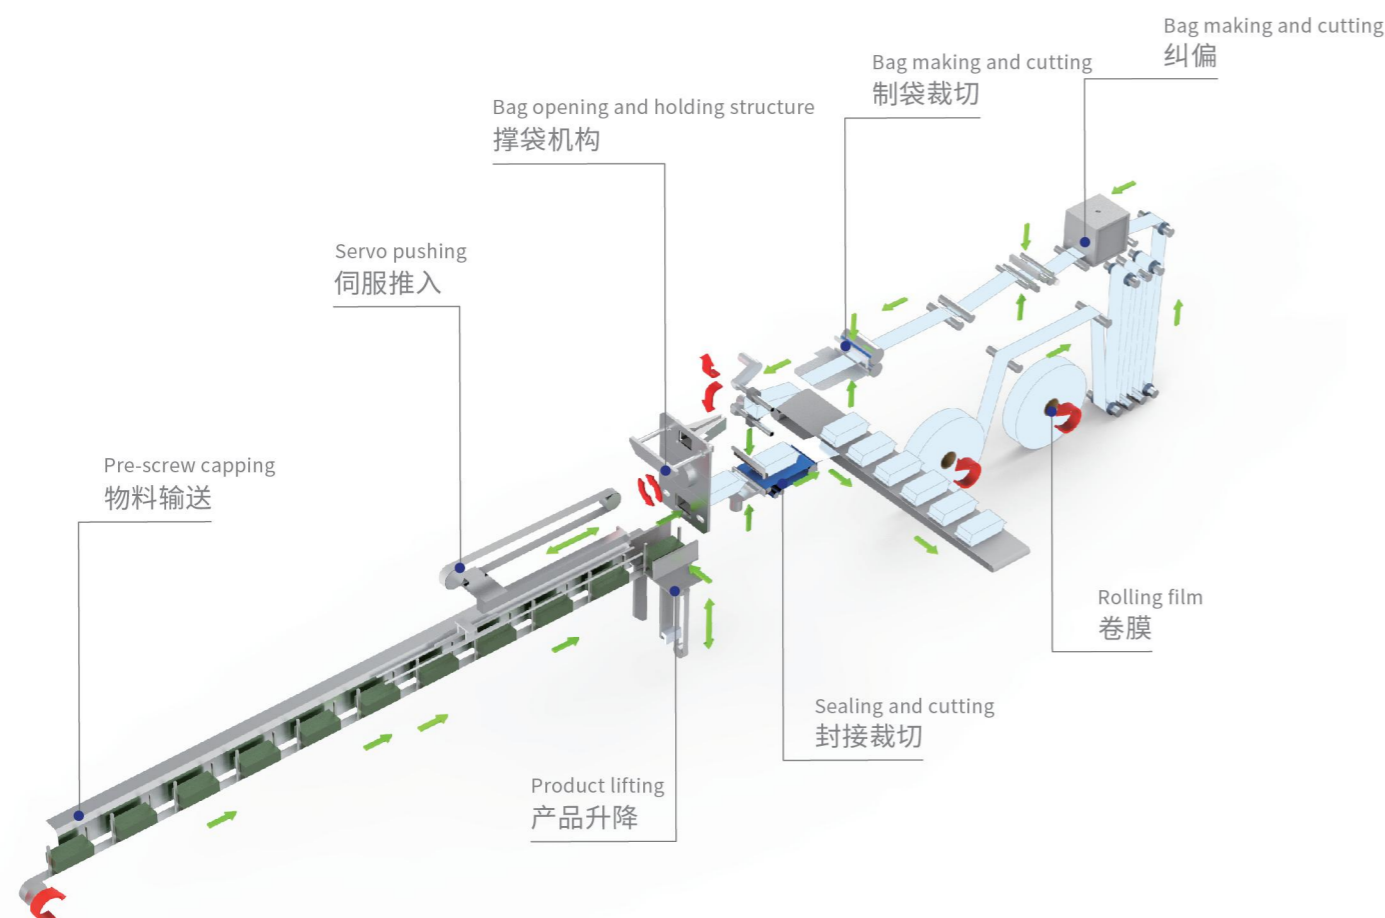

## 袋型可带插口 边线带压痕线 封口切边对齐

Bag can be gusseted The edge has an indentation line  
The sealing and cutting edges are aligned

## 包装物效果图 Packaging renderings

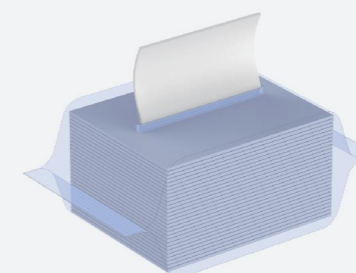

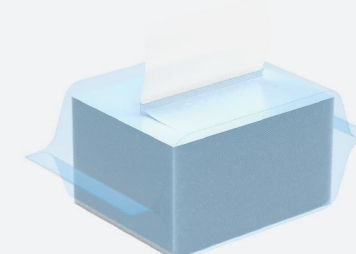

SNP-60全自动套袋包装机为全自动在线制袋套袋封口设备，设备采用筒膜卷。设备的生产工艺流程为筒膜输送、定长裁切、封底制袋、产品套袋、封口、成品排出。设备主要是用于纸巾、卫生巾、块状等形状规则产品的包装。

SNP-60 fully automatic bagging and packaging machine is a fully automatic online bag making and sealing equipment. The equipment adopts rolled type film. The production process of the equipment is rolled typed film conveying, cutting fixed length, bag bottom sealing and bag making, product bagging, sealing, and finished product removal. The equipment is mainly used for packaging regular-shaped products such as paper towels, sanitary napkins, and blocks.

## 三边封枕式包装机

Three sides sealing pillow packaging machine

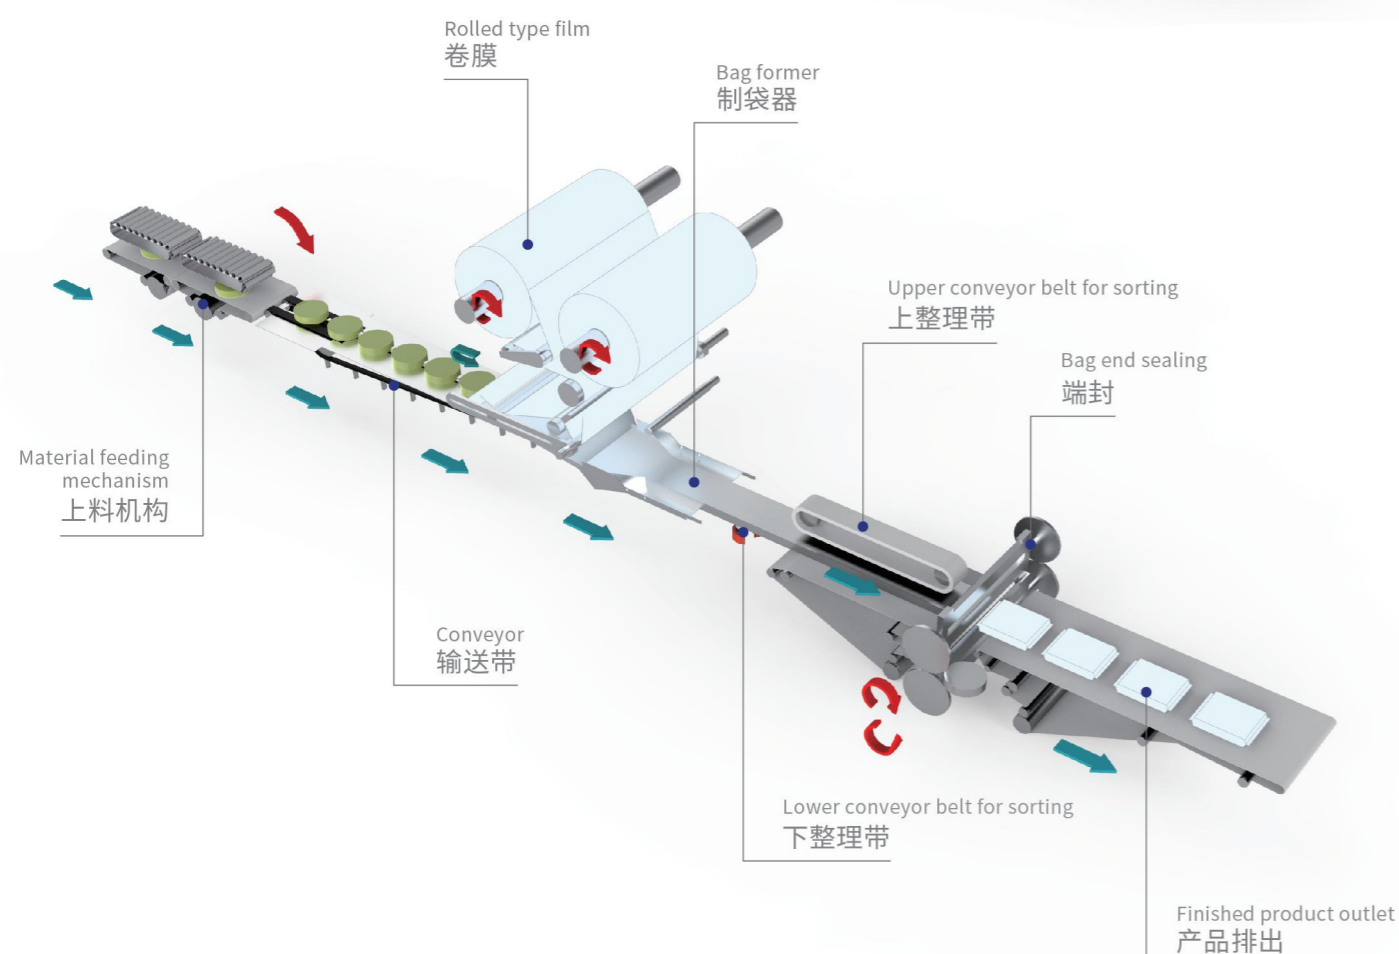

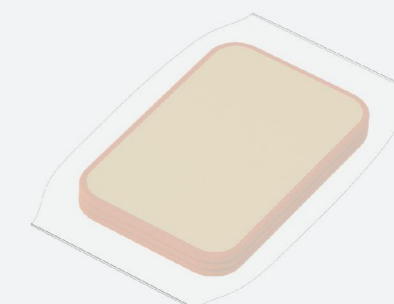

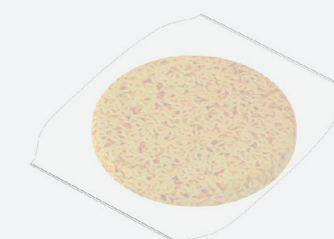

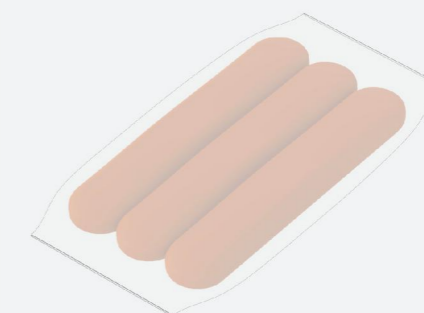

## 复合膜三边封 旋转&回转端封 自动接膜

Complex film three-side sealing Rotary type & reciprocating type end sealing Function to automatically align bottom and upper films

H-5000系列枕式包装机系列涵盖上供膜机型、下供膜机型、旋转式端封、回转式端封等多种机型。可根据不同行业的需求，做全防锈设计，符合GMP要求，可适用药品行业的要求。可配置自动接膜平台，以及多种自动上料装置。

The H-5000 series pillow packaging machine includes a variety of models such as upper film feeding machine, bottom film feeding machine, rotary type sealing, reciprocating type sealing, etc. Machine can be made with full rust-proof design based on the requirements of different industries, in line with GMP requirements, and can reach the requirements of the pharmaceutical industry. It can be configured with function to automatic aligning bottom and upper films and several automatic feeding devices.

Process Description

从卷布开始全自动生成面膜产品

Fully automatic production process which is starting from rolling film to beauty facial mask products

面膜布裁切、面膜布折叠、面膜布袋、精华液灌装和封口。

Facial mask non-woven fabric cutting, face shape mask folding, Folded masks bagging,essence filling and sealing bag.

全自动水乳产品灌装机

Fully automatic lotion product filling machine

模具回流系统、自动吹吸装置、伺服灌装系统、自动压内塞系统、自动旋泵头系统、自动旋盖或压盖系统、产品取出系统。

Mold return system, automatic blowing and suction cleaning device, servo filling system, automatic plug pressing system,automatic screwing pump head system, automatic capping or pressing capping systems and finished products remove system.

铝箔袋冷压成型，单面鼓&双面鼓  
全自动小样灌装设备

Aluminum foil bag cold pressed, single sides convex & Double Sides convex fully Automatic Sample filling equipment

铝箔袋冲压成型、U型封接、灌装、封口、整版模切、产品取出。

Aluminum foil bag stamping forming, U-shaped, sealing, filling, sealing, full plate cutting and finished product removal.

全自动袋装产品灌装机，生产异形袋装类产品

Fully automatic bagged product filling machine which is used for producing special-shaped bagged products

薄膜对中分切、袋成型、灌装、封口、整版模切、产品取出。

The film is cut in the middle and bag forming,filling, sealing, full plate cutting and finished product removal.

针对流体或半流体物料的卡片包装形式，可以实现产品单手掰开，物料方便挤出

For card packaging of fluid or semi-fluid materials, the product can be opened with one hand and the material can be easily extruded

硬膜切线、软膜成型、灌装、封口、整版模切、产品取出。

Hard film cutting opening line, soft film forming, filling, sealing,full plate cutting, finishing product removal.

针对流体或半流体物料进行泡罩包装的设备，可用于化妆品、食品、药品等相关行业

For fluid or semi-fluid materials blister packagingequipment,which is applied in cosmetics, food, medicine and other relatedindustry

底膜输送、底膜成型、灌装、顶膜封口、整版模切、产品取出。

Bottom film conveying, bottom film forming,filling, top film sealing, full pagecutting and finished product removal.

针对流体或半流体物料进行杯状容器灌装包装的设备，可用于化妆品、食品、药品等相关行业

Equipment for filling and packaging cup-shaped containers for fluid or semi-fluid materials, which can be used in cosmetics, food, pharmaceuticals and other related industries

容器输送、物料灌装、膜片定位封口、产品取出。

Cup conveying, material filling, The cup cap is positioned and sealed, the finished product removal.

HC-90系列装盒机适用于薄片类产品自动装盒，可兼容带内衬的产品

HC-90 series cartoning machine is suitable for automatic packaging of thin slice products, also can pack the products with inner lining

产品整理 &计数、自动上料、内衬折叠、产品入内衬、内衬折叠、自动取盒折盒、产品入盒、自动折盒扣盖等。

Product sorting & counting, automaticmaterial feeding, lining folding, put productinto inner lining, lining folding, automatic take box and fold the box, and put the product in box, automatic folding box’ s lids and closing lids, etc.

HC-600系列装盒机适用于水乳或膏霜产品自动装盒，可兼容带内衬的产品

HC-600 series cartoning machine Used for automatic cartoning like lotions or cream products, Also can pack the products which is packed with lining packaging

产品整理、自动上料、内衬折叠、产品入内衬、内衬折叠、自动取盒折盒、产品入盒、自动折盒扣盖等。

Product sorting and automatic feeding materials, lining folding, put products on the inner lining, inner lining folding,automatically box taking and folding, put products into the box, automatically folding the box lip and closing it.

HC-610系列装盒机适用于彩妆等小产品的自动装盒

HC-610 series cartoning machine is suitable for automatic cartoning of small makeup products

产品整理、自动上料、自动取盒折盒、产品入盒、自动折盒扣盖等。

Product sorting, automatic feeding materials,automatic box taking, folding, and put product into box, automatically folding the box lip and closing it.

ST-30单列条包装机适用于化妆品、药品、食品等产品的条包包装生产

ST-30 single-row strip packaging machine is suitable for strip packaging production of cosmetics, medicines, food and other products

薄膜定位、膜卷成型、自动灌装和自动裁切；可选做侧面三边封产品；配置易撕口刀，可选形状。

Film positioning, film forming, Automatic filling and automatic cutting;Optional production of three-side sealing products; Equipped with easy-tearing knife, optional shape.

小型在线旋盖机，配合半自动化生产，节省人力

Small online capping machine, with semi-automated production, saving labor

容器输送、容器定位、旋盖轮夹持、扭力控制旋紧、旋停释放。

Container conveying, bottle positioning,capping wheel clamping and torque control tighten, stopping when completing capping.
