

Flight Fastening Systems

XinXiang Flight Fasteners Co., LTD

COMPANY PROFILE

Xinxiang Flight Fastener Co., LTD. (here inafter referred to as "AVIC Flight") was established in 2014, with more than 70 sets of automation equipment, an annual output of 60 million thread insert, is a professional manufacturer engaged in wire thread insert, self-tapping thread Insert, Key locking Insert and military standard, aerospace institute standard thread fasteners design and manufacturing.

AVIC-Flight products are widely used in 4G, 5G communication base station cooling devices, aerospace, aircraft, ships, wind power transmission systems, national grid transmission equipment, communication electronic equipment, medical equipment, semiconductor high-end equipment and other fields. Is Huawei, Ericsson designated thread insert supplier and State Grid Pinggao Group, Taikai Group, Jiangling, Dongfeng, Shaanxi automobile, northern locomotive and other professional suppliers.

AVIC-Flight is a national high-tech enterprise and a technology-based small and medium-sized enterprise, with 25 state-authorized utility model patents and 12 software Copyrights, and has obtained the GB/T29490-2013 Intellectual property management system certificate, ISO9001:2015 Quality management system

certificate, GJB9001C-2017 Weapon and equipment quality management system certificate and product trademark registration certificate; In 2021, the "AVIC-Flight" brand won the "China Famous Brand" certificate issued by the China Product Quality Evaluation Center; The company has "Xinxiang thread fastener Engineering Technology Research Center"; Mr. Qi Hongwei, the main product designer, won the second and third prizes of Henan National Defense Science, Technology and Industrial Technology Progress.
