Smart Home Application

Product Applications

Smart Home Application

Voltage:
220V-240V

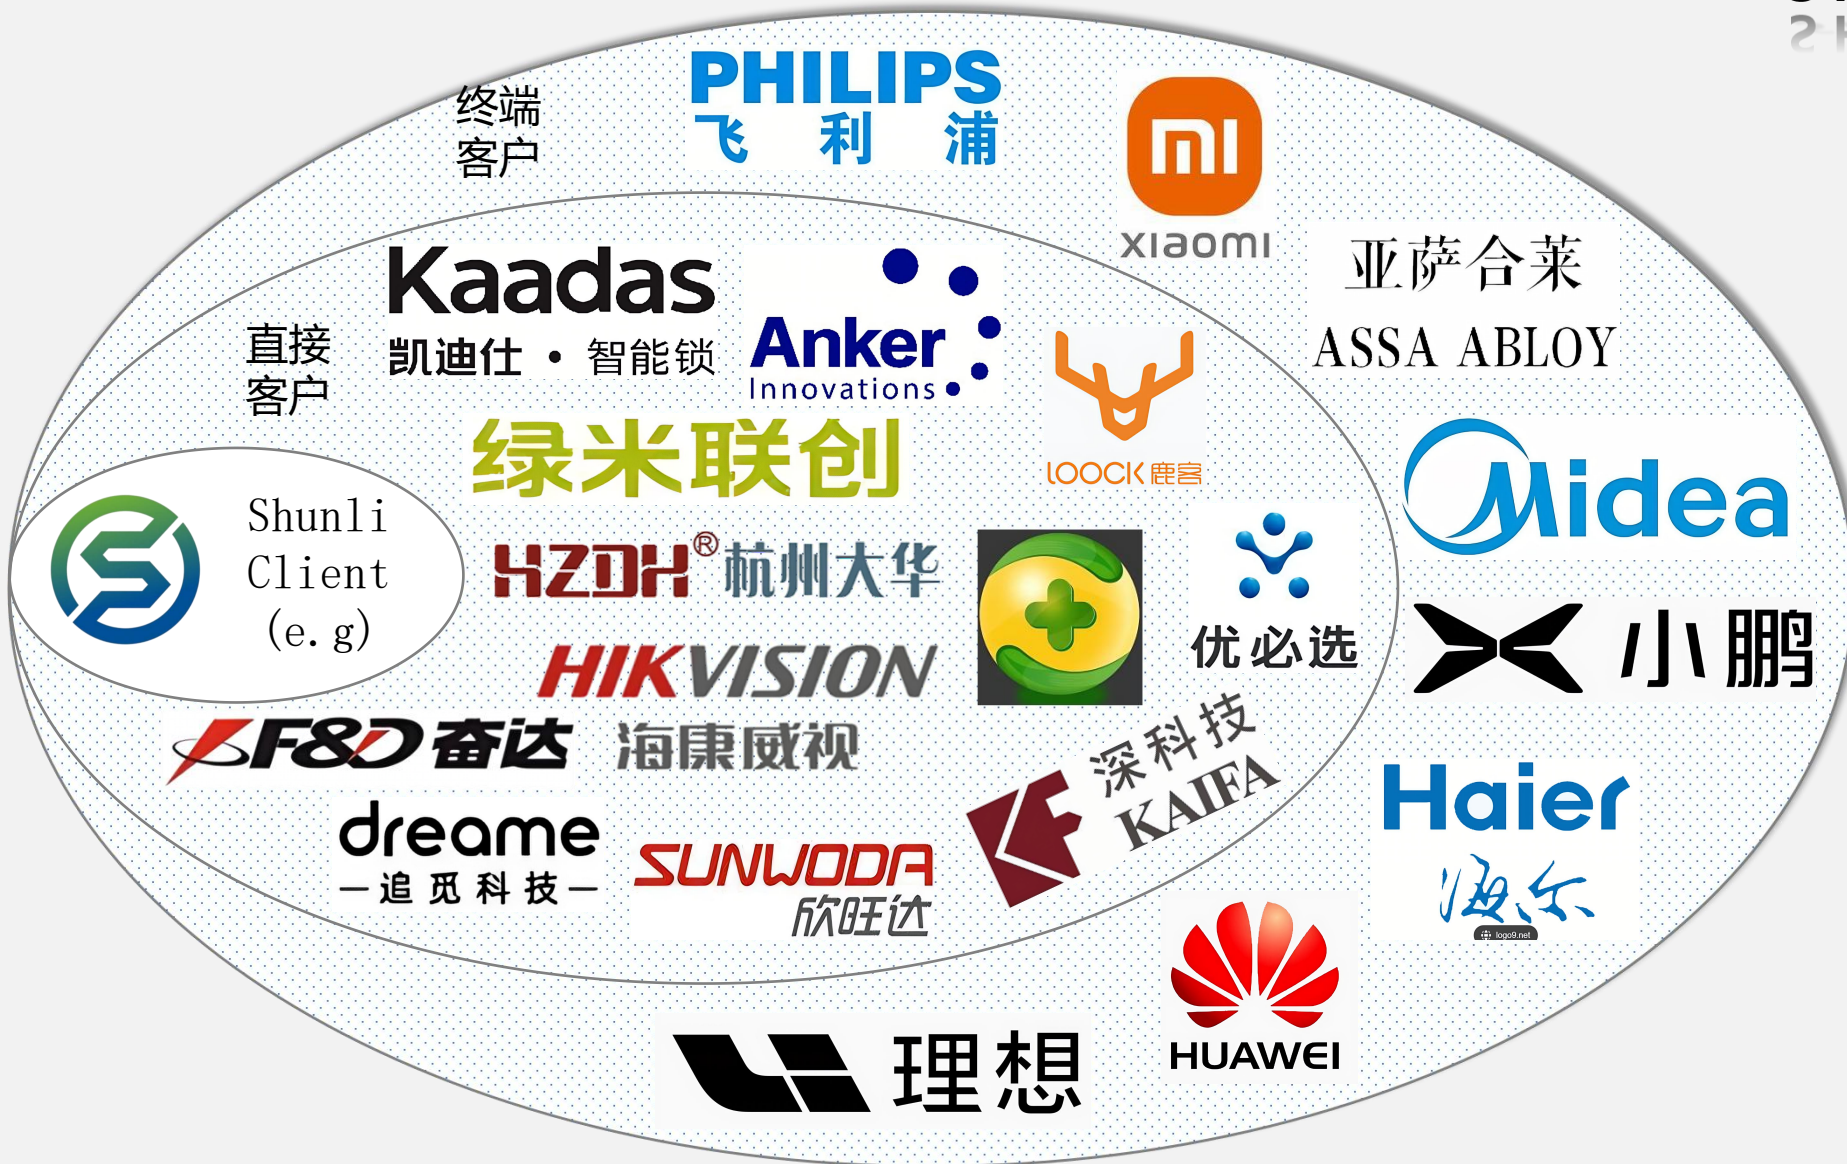

Output Speed:
40-80RPM

Rated Torque:
400KG.CM-2000KG.CM

Automotive Application

Widely used in: electric tailgate, electric seats, air conditioning vents, thermal system water valves, front and rear wipers, etc

Production and Manufacturing Capability

Capable of independently designing and manufacturing molds, shortening the research and development cycle, and ensuring development quality
