

32-inch Car Search Query Machine

Specification

Model: TD-FB-407

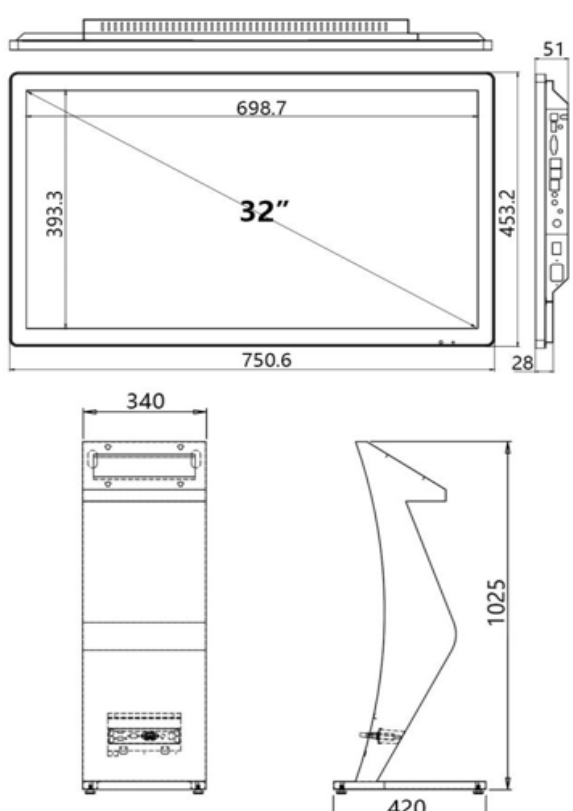

Functional highlights

Part functions introduction

Multi-terminal remote management	Multi-terminal login, cloud management, real-time monitoring, synchronous update query information, Remote machines can be easily managed through cloud servers, making information content protection worry-free.
Gesture sliding page turning	Just slide your finger to browse the content conveniently. You can also create corporate e-books, e-magazines, and picture albums on your own.
3D guided tour	Indoor real scene, floor layout, renderings display, using advanced processing. With the 360° panoramic view, you can see every detail and every corner at a glance.
Picture zoom in and out	When browsing pictures, you can zoom in, zoom out, rotate, and More pictures are listed below for easy selection.
Split screen templates for multiple uses	Dynamic video, static pictures, any combination, play at the same time (can also be displayed simultaneously corporate LOGO, weather, time, date, scrolling subtitles), supports custom fine-tuning.
10-point touch core	0.004 seconds sensitive response, query results are presented instantly, easy to get the latest information, multi-gesture intelligent recognition, no lag even when multiple people use it at the same time.

Smart WIFI module	Built-in wireless WIFI module brings more room for development, online query, remote demonstration, software download, and game interaction greatly enhance the practicality and fun of the machine.
Powerful movement running 7*24 hours	Built-in Intel super CPU, equipped with a powerful military-grade motherboard, allowing multi-tasking, it can run for a long time without any pressure, bringing an ultimate experience beyond imagination to query interaction.
High-definition IPS anti-damage hard screen	The touch screen features high sensitivity, high precision and high light transmittance. Designed with wear-resistant, dust-proof, anti-static, anti-glare and anti-interference technology, it is durable.

Parameter configuration

Screen parameters			
		Display area	699×393mm
		Machine size	751×453mm
		Resolution	1920×1080 (16:9)
		Color Number	16.7M
		Viewing Angle	Full view
		Touch Type	Capacitance
		Touch Point	10-point touch
		Sensing size	≥1mm
		Response speed	< 5ms
		Touch screen resolution	32767×32767
Base parameters			
		Length	340mm
		Width	420mm
		Height	1025mm
Host parameters			
Working power supply	AC100V-240V, 50/60Hz	Body craft	Cold rolled steel + metal paint
Built-in speaker	2×10W stereo speakers	Surface material	Front tempered glass
Machine lifespan	> 60000H	Body style	Four equal sides
interface	USB / VGA / LAN, etc.	Installation	Floor-standing horizontal

Configuration Checklist	
Motherboard	High-end solid-state lightning-proof military-grade motherboard
processor	Super Intel i5 CPU multi-opening processor
Memory	Free upgrade to 4G high-speed memory
Hard disk	Free upgrade to 128G military-grade solid-state drive
Size	32-inch original high-definition large screen
Touch Type	Ultra-long lifespan classic capacitive touch
Purchase Gift Package	<ul style="list-style-type: none">✧ Gift 1: One high-strength K-type base.✧ Gift 2: Free upgraded warranty service, 2-year warranty for LCD display, 3-year warranty for wire and electronic materials.✧ Gift 3: Support lifelong maintenance.✧ Gift 4: Free exclusive customer service 7×24 hours online service
