

SUPERIOR PERFORMANCE **HIGH-EFFICIENCY PRINTING**

DN-M Series Online TIJ Printer

▶ 10" Touchscreen · Fast&Stable · 600dpi · Multi-formats ◀

FOR BETTER USER EXPERIENCE

POWERFUL FUNCTIONS

10" Large Screen
Smart Control

Icon-based UI
Easy Operation

Rich Content
Text, 2D code, Graphic

Various Materials
Carton, Plastic, Metal, etc.

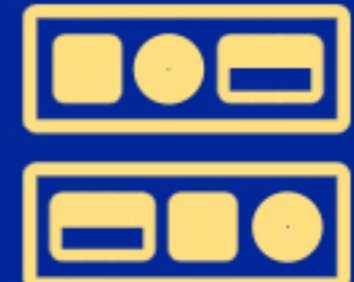

40+
Languages

Production Line
Over 60m/min

Fine Printing Effect
Clear & Beautiful

Multiple Printheads

MORE RELIABLE PROFESSIONAL HARDWARE
FREESCALE INDUSTRIAL HIGH PERFORMANCE CPU
CORTEX-A9 PROCESSOR

Main frequency up to 1.4GHz, 2G memory, 8G ROM.
Low power consumption, high performance and super stability
provide a solid hardware foundation for the inkjet printer.

Dual USB Interface

10 INCH SMART TOUCH SCREEN

New User Interface, Easy Operation

USB interface on side, compatible with various file formats.
Importable file types include graphics/images/logo/txt/excel, etc.

IMAGE

Compatible with 24-bit
BMP/JPG/PNG/JPEG/etc.

FILE

Compatible with CSV
TXT/XLS/etc.

SMART INK PRINT SYSTEM

Multi-specification for full-scene production

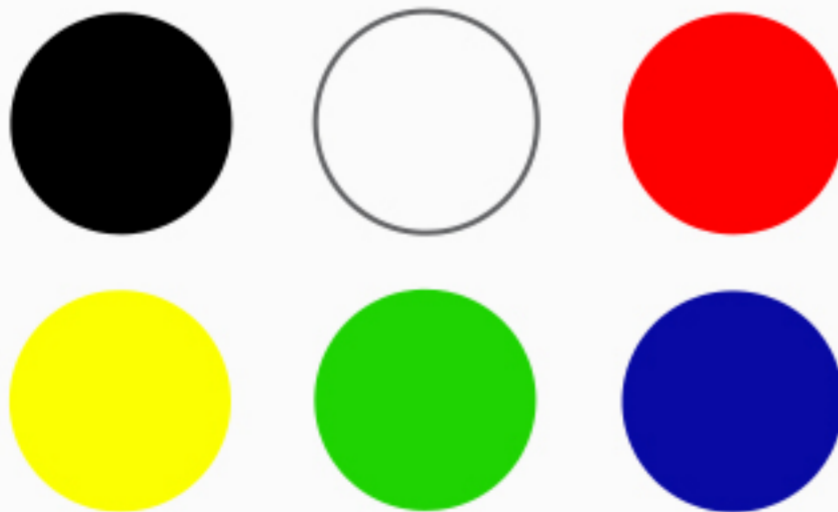

**1/2 inch
Printhead**
(12.7MM)

**1 inch
Printhead**
(25.4MM)

12.7MM/25.4MM OPTIONAL

Support printing from top/side/flat/oblique
Meet the needs of production

(Black/White/Red/Yellow/Green/Blue/Purple, etc.)

**ONE-INCH / HALF-INCH
INK CARTRIDGES**

ALUMINIUM ALLOY PRINTHEAD

01

Light Weight/Corrosion Resistance/High Strength

Equipped with a high-sensitivity photoelectric sensor
Ensuring accurate code positioning
Preventing deviations and omitted codes printing.

MULTI-INTERFACE MAINBOARD DESIGN

02

Support printhead expansion

戴纳标识技术(上海)有限公司
DANAR IDENTIFICATION TECHNOLOGY (SHANGHAI) CO.,LTD.

2 printing units can be controlled simultaneously, enabling large-format and multiple inkjet printings.

RICH INTERFACES

03

Support different protocol transmission

Supports network and serial port connections for versatile data transmission.
Dual USB interfaces for expansion.

Versatile Inkjet Coding

MEET DIVERSIFIED PRODUCTION NEEDS

Free to edit printing content: number, text, date, graphics, two-dimensional code, bar code, etc.
