

Warrior MAX Series

HOSE SIZE
80M 3/8

ENGINE: Honda GX690(22HP)

High pressure pump

Warrior MAX Series

WS3030-Max

Water tank: 50L
Weight: 44KG
Size: 115*115*120CM
Pressure/Flow (Europe):
100bar 30Lpm
Pressure/Flow (USA):
135psi/8gpm
High pressure pump material:
German brand stainless steel
Transmission: OSG
Engine: Honda GX690
Injector hose size:
3/8 model, 80 meters
Water injection hose size:
4 points
Wireless Remote Control:
RS3 Remote Control OLED Screen Remote Control
Wireless valve:
supports 200 meters
Fuel tank capacity: 25L

Multifunctional control remote control

Rs3 system

HOSE Size: 3/8
Applicable pipes

made in China

1
year warranty

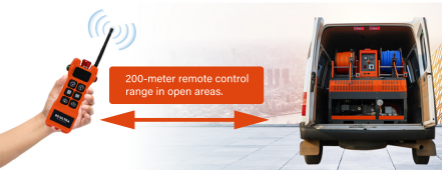

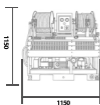

Single person operation

WS3030-Max

Bulletproof Filter hose

200-meter remote control range in open areas.

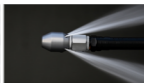

Nozzle Selection Guide

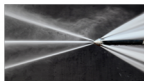

Root Cutting Nozzle
Treating tree roots and stubborn grease in residential building main pipes

Mini Low-Angle Jet Nozzle
The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

Skid Nozzle
The rear spray angle is small, and because the amount of water sprayed is small, it has concentrated impact and strong penetrating power. It is suitable for commercial pipelines and can smoothly flush away debris and oil sludge.

Small puncture Nozzle
Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.

Thumb Nozzle
The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe.

Camera nozzle
Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.
