

Warrior Supreme

ENGINE: Honda gx800EFI

HOSE SIZE 80M 3/8

HOSE SIZE 80M 5/16

High pressure pump

Warrior Supreme Series

WSS3030

Water tank: 50L
 Pressure/Flow (Europe): 300bar 30gpm
 Pressure/Flow (USA): 430psi/10gpm
 High pressure pump material: **Meiten stainless steel from Germany**
 Transmission: 08G
 Engine: **Honda 800**
 Injector hose size: 40 meters for 3/8 and 5/16 models
 Water injection hose size: 4 points
 Wireless remote control:
 RS4 remote control OLED screen remote control
 Wireless valve:
 supports 200 meters
 Fuel tank capacity: 29L

Multifunctional control remote control

Rs4 system

Hose Thread:
Left side 3/8, Right side 5/16
Applicable pipes

2-8 inch

made in China

1
1 year warranty

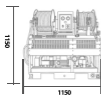

Single person operation

WSS3030

Bulletproof Filter hose

200-meter remote control range in open areas.

Nozzle Selection Guide

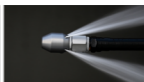

Root Cutting Nozzle

Treating tree roots and stubborn grease in residential building main pipes

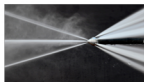

Mini Low-Angle Jet Nozzle

The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

Skid Nozzle

The rear spray angle is small, and because the amount of water sprayed is small, it has concentrated impact and strong penetrating power. It is suitable for commercial pipelines and can smoothly flush away debris and oil sludge.

Small puncture nozzle

Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.

Thumb nozzle

The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe.

Camera nozzle

Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.

DIY Multi functional nozzle

You can install different inserts to change the spraying pattern. Unlock new spraying modes through various DIY configurations.
