

Mini Blaster series

HOSE SIZE
50M 5/16

ENGINE: RUNTONG ENGINE

High pressure pump

Mini Blaster series

MBS3016

Water tank: 60L
Weight: 154KG
Size: 80 * 59 * 105CM
Pressure/Flow (Europe):
20bar 100pm
Pressure/Flow (USA):
1200psi/10pm
High pressure pump material:
stainless steel
Transmission:
Engine: RunTong
Injector hose size: 5/16 50 meters
Hose reel mode:
manual water injection
hose size: 4 points
Wireless remote control/
Wireless valve/
Fuel tank capacity: 7L

HOSE Size: 5/16
Applicable pipes

2-6
inch

Pro Fiber Hose

Mini Blaster series

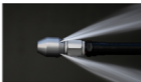

Nozzle Selection Guide

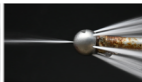

Mini Low-Angle Jet Nozzle

Suitable for large-area flushing pipes.
Suitable for long-distance hose propulsion

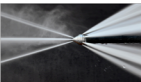

Skid Nozzle

The rear spray angle is small, and because the amount of water sprayed is small, it has concentrated impact and strong penetrating power. It is suitable for commercial pipelines and can smoothly flush away debris and oil sludge.

Thumb Nozzle

It is not easy to get stuck in the pipeline. There is a water outlet on the side, which allows you to easily change the cleaning direction

Small puncture Nozzle

Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.
