

# Mammoth Series

HOSE SIZE  
80M 3/8

Honda GX690 ENGINE 22 HP

High pressure pump

## Mammoth series-3030

### MS3030

Water tank:/  
Weight: 226 kilograms  
Size: 112 \* 80 \* 94CM  
Pressure/Flow (Europe):  
300bar30lpm  
Pressure/Flow (USA):  
4350psi8gpm  
High pressure pump material:  
Meisten stainless steel from Germany  
Transmission: 08G  
Engine:  
Honda 690 22HP  
Injector hose size:  
3/8 model, 80 meters  
Water injection hose size:  
4 points  
Wireless Remote Control:  
RS3 Remote Control OLED Screen  
Remote Control  
Wireless valve:  
supports 200 meters  
Fuel tank capacity: 10L

Multifunctional control remote control

Rs3 system

HOSE Size: 3/8  
Applicable pipes

2-8  
inch

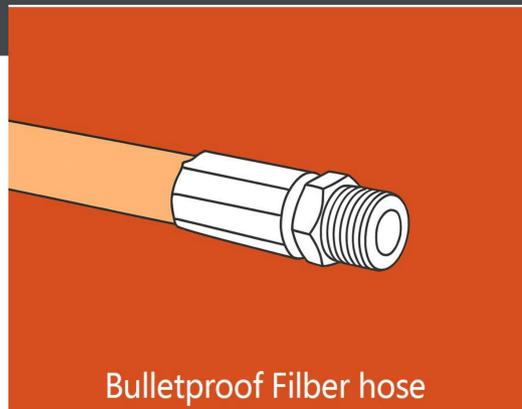

made in  
China

1

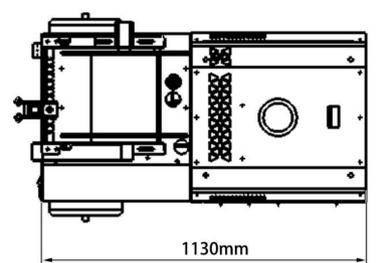

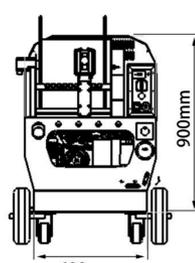

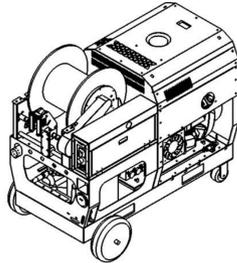

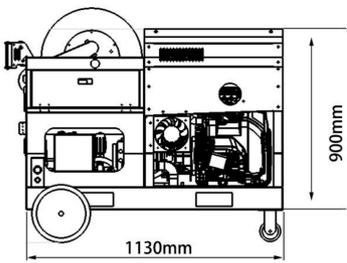

1 year  
warranty

Single person  
operation

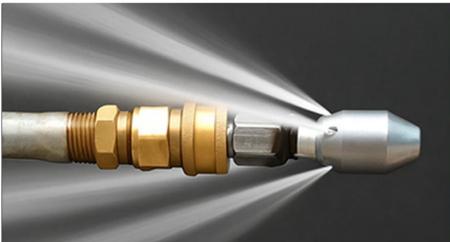

Bulletproof Fiber hose

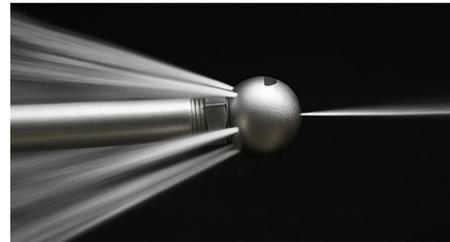

200-meter remote control range in open areas.

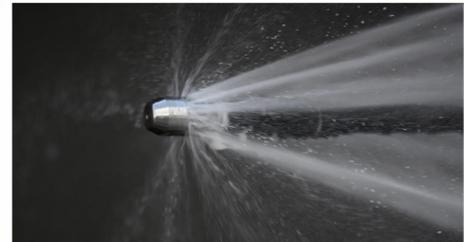

## Nozzle Selection Guide

**Skid Nozzle**  
Rear spray angle is small, with fewer jets for concentrated impact and strong penetration. Ideal for commercial pipes to flush out debris and grease smoothly.

**Thumb Nozzle**  
One front jet and six rear jets. Rear jets have a very narrow angle, concentrating backward for maximum thrust. Ideal for long-distance pipe cleaning.

**Mini Low-Angle Jet Nozzle**  
The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

**Root Cutting Nozzle**  
For removing roots and stubborn grease in residential main sewer lines.

**Small puncture Nozzle**  
Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.

**Camera nozzle**  
Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.

**DIY Multi functional nozzle**  
You can install different inserts to change the spraying pattern. Unlock new spraying modes through various DIY configurations
