

Thunder Ultra Series

HOSE SIZE
50M 5/16

ENGINE:HONGDA GX430

High pressure pump

Thunder Ultra Series

TS2023-ultra

Water tank: 60 liters
Weight: 154 kilograms
Dimensions:
90 x 59 x 105 centimeters
Pressure/Flow (Europe):
230 bar, 23 l/min
Pressure/Flow (US):
2400 psi, 6 gpm
High-pressure pump material:
stainless steel
Transmission: Germany
Engine:
Honda GX430 14.9HP
Spray Hose Size:
5/16 Model 50 Meters
Water injection hose size: 4 inches
Wireless Remote Control:
RS2 Remote with OLED Screen
Wireless Valve: Supports up to 200 meters
Fuel tank capacity: 7 liters

Multifunctional control remote control

Rs2 system

HOSE Size: 5/16
Applicable pipes

2-6
inch

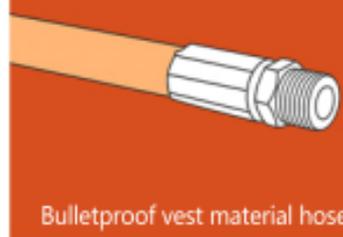

made in
China

year
warranty

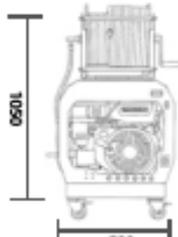

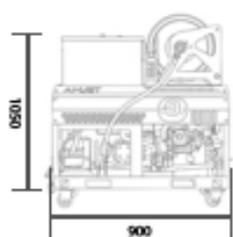

Single person
operation

TS2023-ultra

Bulletproof vest material hose

200-meter remote control range in open areas.

Nozzle Selection Guide

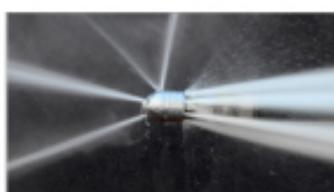

Root Cutting Nozzle

Treating tree roots and stubborn grease in residential building main pipes

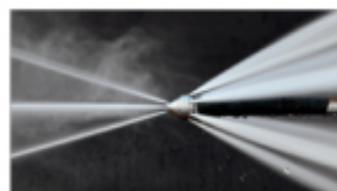

Skid Nozzle

The rear spray angle is small, and because the amount of water sprayed is small, it has concentrated impact and strong penetrating power. It is suitable for commercial pipelines and can smoothly flush away debris and oil sludge.

DIY Multi functional nozzle

You can install different cores yourself to change the spray mode. Unlock new spray modes through different DIY methods

Small puncture Nozzle

Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.

Thumb Nozzle

The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe

Camera nozzle

Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.
