

# Titan Series-15128

Mitsubishi car engine

High pressure pump

## Titan Series

### TS15128

Water Tank: 400L  
 Pressure/Flow (Europe):  
 150bar 128lpm / 200bar 95lpm  
 200bar 65lpm / 200bar 40lpm  
 Pressure/Flow (USA):  
 2350psi 290GPM  
**High-pressure Pump Material:**  
 Stainless Steel  
 Gearbox: DTG  
 Engine:  
 Mitsubishi Gasoline Engine 2.0T 100HP  
 Water Hose Size: 1/4 inch  
 Wireless Remote Control:  
 RS4 Remote with OLED Screen  
 Wireless Valve:  
 Supports 200 meters  
 Fuel Tank Capacity: 25L

Multifunctional control remote control

Rs4 system

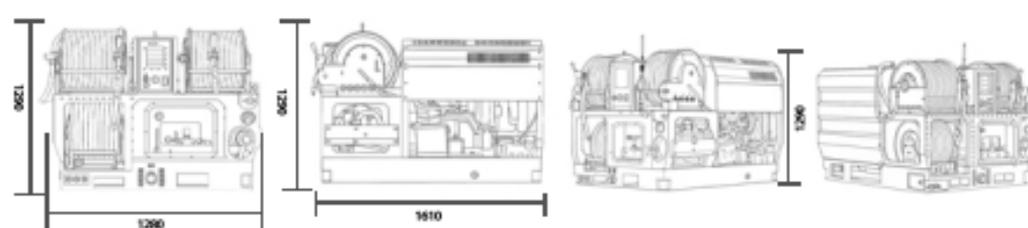

### Applicable pipes

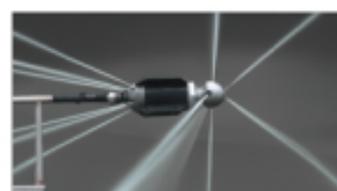

### TS15128

Pro Fiber Hose

## Nozzle Selection Guide

**Rotary Cut MAX Nozzle**  
 Rotating nozzle, shaped like a tornado, with wide coverage, suitable for cleaning silt and mud from large pipes, rotating to clean oil sludge and fine sand.

**Turbot Nozzle**  
 Rear multi-hole nozzle, suitable for flushing mud and sand from ditches

### Municipal Model 150bar128lpm

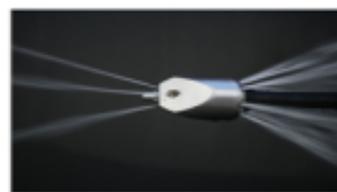

**Rocket Nozzle**  
 One in front and six in back. The water spray angle at the rear is particularly small, with the water spray concentrated toward the rear to generate maximum thrust. Suitable for long-distance pipeline propulsion

**Sea Mine Nozzle**  
 Conventional nozzle, with the first hole spraying water and the rear six holes spraying water. The front water jet can clean blockages, while the rear spray has a wide angle, effectively cleaning the walls of large pipes.

### Commercial Model 200bar95lpm

**Diamond Drill Nozzle**  
 The front three holes spray water to treat municipal sludge clogging the pipes. The rear six holes discharge water to provide hose propulsion.

**Penetrator Pro**  
 Rotating nozzle, special alloy material, for handling minor concrete or cement clumps or heavy grease blockages

### Community Model 200bar65lpm

**Mini Pagoda Nozzle**  
 Rotating nozzle, suitable for cleaning grease buildup in residential main pipes

**Pro Low-Angle Jet Nozzle**  
 The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

### Residential Model 200bar40lpm

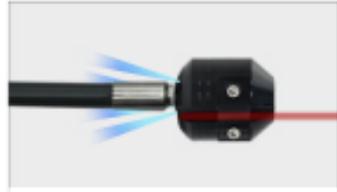

**Thumb Nozzle**  
 The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe

**Thumb Nozzle**  
 The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe

### Compatible with all modes

Camera nozzle / DIY nozzle

**Camera nozzle**  
 Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.

**DIY Multi functional nozzle**  
 You can install different inserts to change the spraying pattern. Unlock new spraying modes through various DIY configurations
