

Titan Series-3060

HOSE SIZE
75M 1/2

HOSE SIZE
80M 5/16

Mitsubishi car engine

High pressure pump

Titan Series

TS3060

Water Tank: 300L
 Pressure/Flow (Europe):
 300Bar 60Lpm
 Pressure/Flow (USA):
 4350psi 15gpm
 High-pressure Pump Material:
 Stainless Steel
 Gearbox: 09G
 Engine:
 Mitsubishi Gasoline Engine 2.0T 190HP
 Water Hose Size: 1/4"
 Wireless Remote Control:
 RS4 Remote Control with OLED Screen
 Wireless Valve:
 Supports up to 200 meters
 Fuel Tank Capacity: 25L

Multifunctional control remote control

Rs4 system

Hose Thread:
 Left side 1/2, Right side 5/16

Applicable pipes

2-16 inch

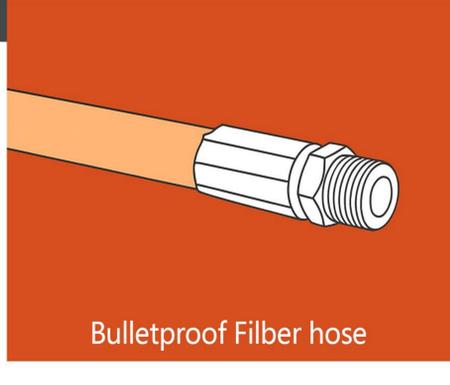

made in China

1
1 year warranty

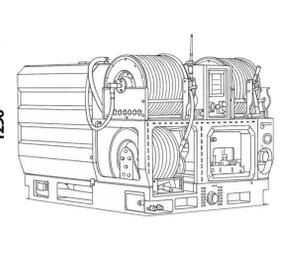

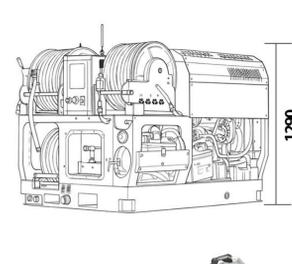

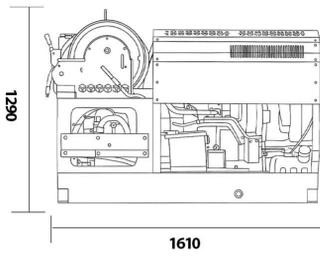

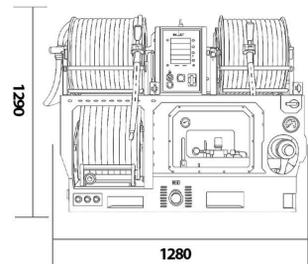

Single person operation

TS3060

Bulletproof Fiber hose

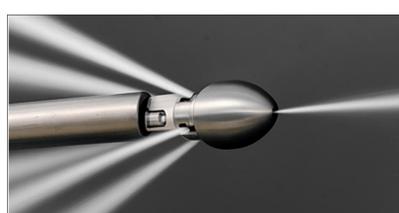

200-meter remote control range in open areas.

Nozzle Selection Guide

Commercial Model 300bar60lpm

Diamond Drill Nozzle
 The front three holes spray water to treat municipal sludge clogging the pipes. The rear six holes discharge water to provide hose propulsion.

Rocket Nozzle
 One in front and six in back. The water spray angle at the rear is particularly small, with the water spray concentrated toward the rear to generate maximum thrust. Suitable for long-distance pipeline propulsion.

Pro Low-Angle Jet Nozzle
 The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

Root Cutting Nozzle
 The front turbine rotates, causing the water to swirl and break up heavy blockages of grease and tree roots ahead.

Penetrator Pro
 Rotating nozzle, special alloy material, for handling minor concrete or cement clumps or heavy grease blockages

Residential Model 300bar30lpm

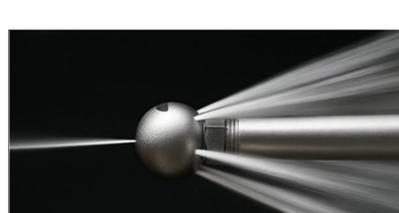

Root Cutting Nozzle
 Treating tree roots and stubborn grease in residential building main pipes

Small puncture Nozzle
 Mainly used for long-distance propulsion of hoses. Suitable for cleaning blocked residential sewers.

Mini Low-Angle Jet Nozzle
 The rear spray angle is small, and there are more water outlets. Suitable for large-area flushing pipes. Suitable for long-distance hose advancement.

Thumb Nozzle
 The exterior design is relatively rounded, allowing it to turn in smaller pipes. When turning, its rounded design prevents it from getting stuck in the pipe

Compatible with all modes

Camera nozzle /DIY nozzle

Camera nozzle
 Perfectly combined with sewer cameras for better long-distance pipeline inspection. Made of aluminum alloy.

DIY Multi functional nozzle
 You can install different inserts to change the spraying pattern. Unlock new spraying modes through various DIY configurations
