1. IMPORTANT

- 1) Power supply must be AC 100 — 120V.
- 2) This is a high—volume pump. Please use this pump continuously no more than 2 hours, otherwise, it can overheat and damage the pump.
- 3) Keep the pump out of the reach of children.
- 4) Do not obstruct the inflation port & blowhole and keep them ventilated all the time.

2.WARNING

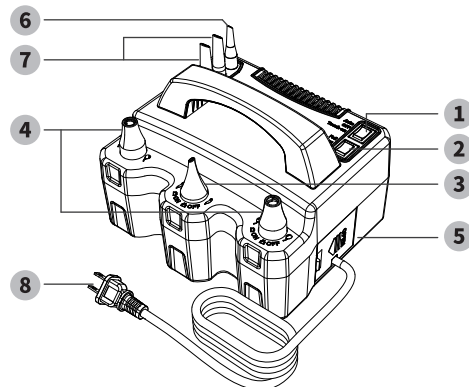

- 1) Never Leave pump unattended while the pump is in use.
- 2) Do not keep/use the pump in wet condition.
- 3) Never allow sands, small rocks , etc. to be sucked into inflation port & blowhole when using the pump.
- 4) Never look inside or point the inflation port & blowhole towards your eyes when the Pump is working.
- 5) Never attempt to put hand or fingers into the inflation port & blowhole at any time.
