Technology Aesthetics

Make our smart life within reach

意大利设计师精心之作，在汲取意式家居高定灵感，
用领先于潮流的先锋设计理念，
让升降插座的每一个细节都 闪耀着轻奢主义的光芒。
在功能方面，更人性化的设计、
航空级静音升降轨道以及更稳定的智能升降系统，将艺术性、智能性、
与现代审美的创新都融合在一起，其中科技与美学让我们的智能生活变得触手可及。

The Italian designer's elaborate work, drawing inspiration from Italian home furnishing,
With the pioneering design concept ahead of the trend,
Let every detail of the lift socket shine with the light of luxury.
In terms of function, more user-friendly design,
Aviation-grade silent lift track and a more stable intelligent lift system combine artistry, intelligence,
The innovations of modern aesthetics are all fused together,
in which technology and aesthetics make our smart life within reach.

ONE-BUTTON ELECTRIC LIFT
ANTI-PINCH AND
ANTI-COLLISION DESIG

Say goodbye to the pure manual era,
easy to hide, integrated into the desktop, sensitive response

一键电动升降
防夹防顶撞设计

告别纯手动时代，简易隐藏，融于桌面，灵敏反应

防顶撞保护
产品在上升过程中，如遇任何物品阻挡上升，自动控制系统自动停止上升动作

防夹保护
产品在回位过程 中，如遇任何物品阻挡，在停顿1秒后，自动上升一段距离，防止物品被夹

Anti-collision protection
During the ascending process of the product, if any object blocks the ascending, the automatic control system will automatically stop the ascending action.

Anti-pinch protection
In the process of returning the product, if any object is blocked, it will automatically rise a certain distance after a pause of 1 second to prevent the object from being clamped.

The new definition of electricity
from kitchen island

厨房岛台取电新定义

产品名称 Product name	智能升降插座 Smart lift socket
升降方式 Lifting method	电动升降 Electric lift
电压范围 Voltage range	110V~250V~
额定功率 Rated power	2500W
额定电流 Rated current	10~15A
USB模块输入 USB module input	110V~250V~ 50/60Hz
USB模块输出 USB module output	5V---2.1A
无线充电输入 Wireless charging input	110V~250V~ 50/60Hz
无线充电输出 Wireless charging output	5V---2.1A
面板材质 Panel material	钢化玻璃面板 Tempered glass panel
产品认证 Certified product	CCC/CE认证 CCC/CE certification
台面开孔 Countertop opening	10cm
外壳材质 Shell material	航天铝合金 Aerospace aluminum alloy

轻触2下开启

轻触2下产品自动升降
告别纯手动时代

2 taps to open

Touch Two to automatically lift the product
Say goodbye to the purely manual era

充电不再繁琐即放即充

即放即充，频率稳定，电量转化率达85%
充满自动断电，延长手机寿命

**Charging is no longer cumbersome,
just put and charge**

It can be charged immediately after discharge,
the frequency is stable,
and the power conversion rate is as high as 85%.

IP44级防水保护

产品关闭状态下，IP44结构设计
有效防止水溅泼，抗油渍

Ip44 waterproof protection

When the product is closed,
the IP44 structure design can effectively
prevent water splashing and oil stains

CUSTOMIZABLE LIFT SOCKET MODULEANY COMBINATION

Modules can be customized, different modules according to needs, to facilitate your life

产品安装介绍

Product installation introduction

安装环境:
要求安装于面厚度介于5mm~40mm之间，平面开孔尺寸直径为100mm

Installation Environment:
It is required to be installed on a surface with a thickness between 5mm and 40mm, and the diameter of the plane opening is 100mm.

步骤1:
顺时针沿螺纹退下装在产品上的锁紧圈、垫圈、挡圈

Step 1:
Remove the locking ring, washer, retaining ring installed on the product along the thread clockwise

步骤2:
将产品垂直装入预留直径100mm平面孔内

Step 2:
Install the product vertically into the reserved 100mm diameter flat hole

步骤3:
取锁紧圈和挡圈对准孔位装上M3X28螺丝

Step 3:
Align the locking ring and retaining ring with the holes and install M3X28 screws

步骤4:
逆时针沿螺纹依次旋上垫圈、挡圈、锁紧圈

Step 4:
Screw on the washer, retaining ring and locking ring in turn along the thread counterclockwise

步骤5:
逆时针沿螺纹紧锁圈后，用十字螺丝刀拧紧螺丝

Step 5:
After tightening the locking ring along the thread counterclockwise, tighten the screw with a Phillips screwdriver
