# About

## Corporate Profile

Established in August 2019 and built upon Founder Mr. Wu's 28+ years of industry expertise. The company is now located in Huizhou, China, with 10,000+ square meters of modern manufacturing workshop, and equipped with more than 20+ technicians with rich experience in scientific research and innovation, and a highly efficient and collaborative international trade team. Vapasauna has evolved into a global leader in advanced sauna and spa solutions. As an ISO-certified manufacturer, we deliver integrated ODM/OEM services, patented product development, and turn key solutions for worldwide markets.

### ✓ Pioneering R&D Capability

Our innovation center launches 30+ engineered products annually, holding 12 international patents with 200% faster product refresh rate than industry average.

### ✓ Global Manufacturing Expertise

Having served 50+ premium brands across 20+ countries including North America, EU and APAC regions.

### ✓ Comprehensive Product Ecosystem

- Patented outdoor wood-fired sauna stoves
- Multi-functional hot & cold soaking tubs
- Market-tested, stable and durable chiller
- 300+ modular sauna accessory kits
- Customized indoor/outdoor sauna solutions

### ✓ Quality Assurance

- ISO 9001/BSCI, strict quality management system
- Full compliance with CE/FCC/ETL/SAA standards
- FSC, ensuring legal and sustainable sources of timber
- 10,000m<sup>2</sup> automated production base
- 98% on-time delivery rate
- 3-year extended warranty program

### ✓ Market Validation Our "Trend-forward Design x Competitive Pricing" strategy achieves:

- 30-day regional bestseller conversion for new launches
- 87% client retention rate
- 35% premium margin enhancement for partners

### ✓ Partnership Models

- OEM Manufacturing Services
- Custom ODM Development
- Co-engineering Collaboration
- Global Logistics Coordination

Corporate Vision  
"Engineering Wellness Through Innovation & Integrity"

Discover partnership potential at our smart manufacturing base - where thermal technology meets business opportunities.

## RICH EXPERIENCE

25years Professional full production experience

## OEM&ODM

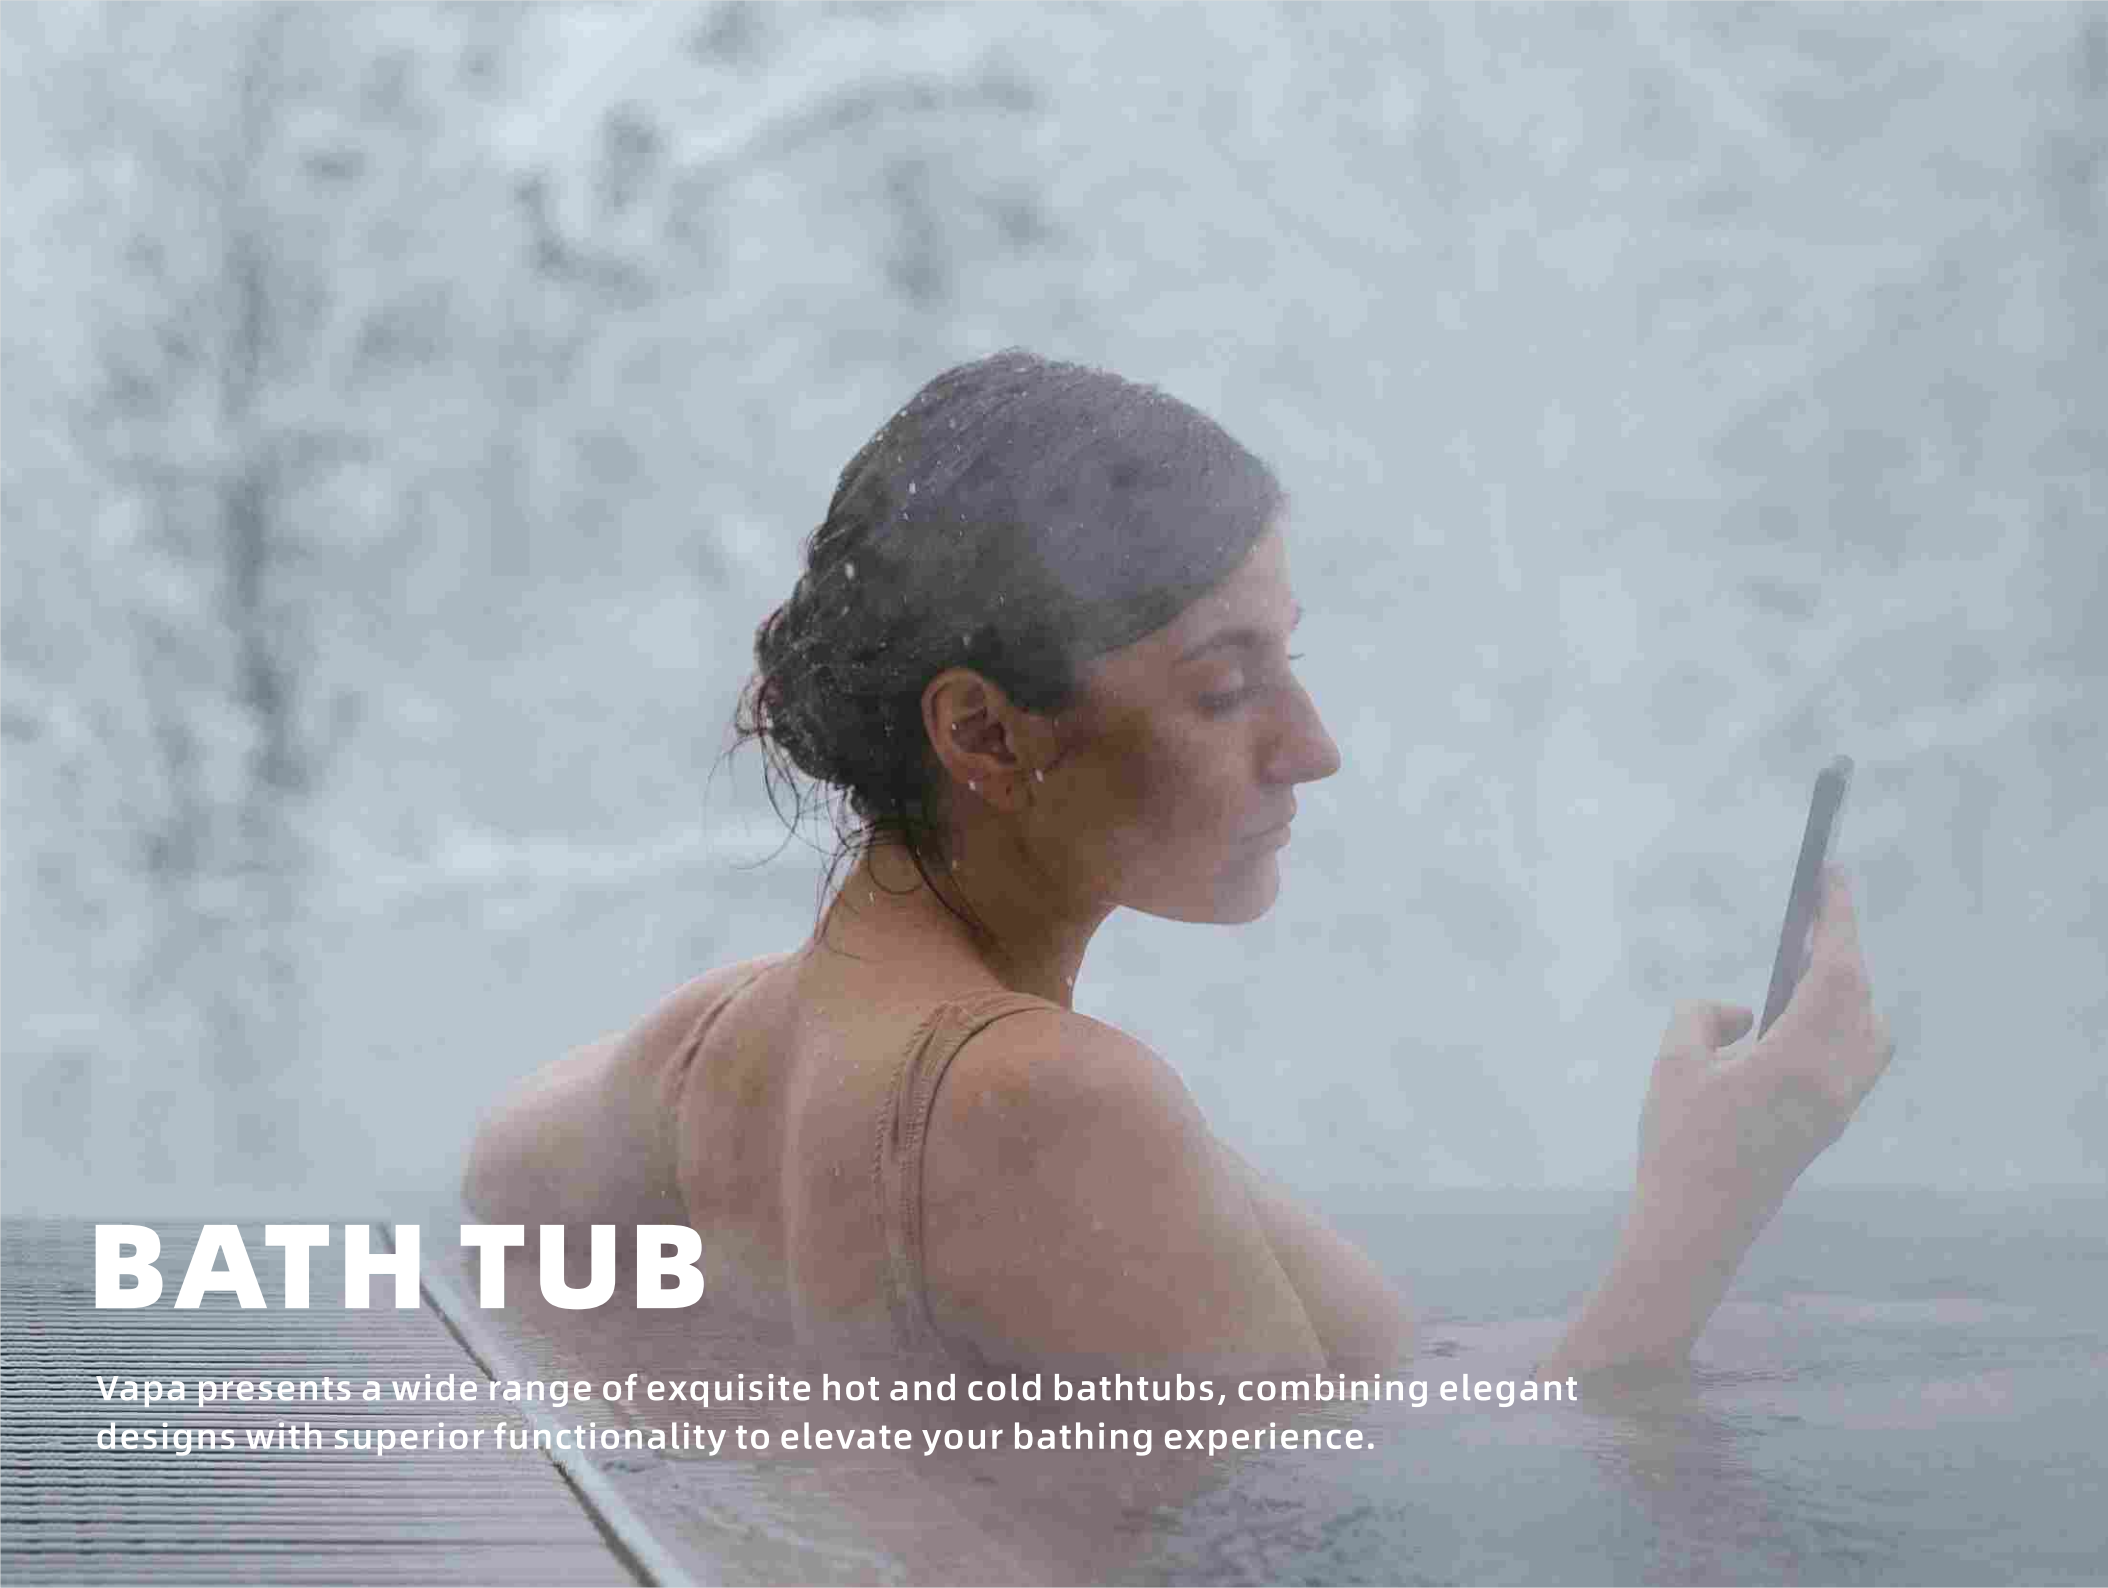

OEM&ODM are both Available.

## PROFESSIONAL R&D

Excellent research and development and innovation ability

# BATH TUB

Vapa presents a wide range of exquisite hot and cold bathtubs, combining elegant designs with superior functionality to elevate your bathing experience.

# Cold Plunge Bath Tubs

Ice bath, an ancient hydrotherapy method, are widely used to enhance physical and mental well-being. Immersing in cold water promotes blood circulation, reduces muscle fatigue, alleviate inflammation, and boosts immunity. Ice baths also improve mood, increase alertness, leaving one feeling refreshed. Many athletes use them for recovery after exercise. Vapa's ice baths come in a variety of materials and sizes, with full functionality. Equipped with temperature control, filtration system, and UV sterilization system and WiFi options, ensuring you enjoy the best ice bath experience.

# Cold Tub Chiller

The VAPA ice bath machine not only brings an extremely cool feeling to the body but also has many benefits. After high-intensity exercise, ice bath can help relieve muscle soreness, reduce inflammation, and accelerate physical recovery. It is like a considerate rehabilitation assistant, escorting your health.

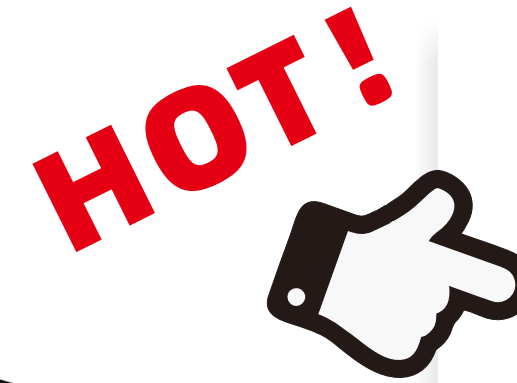

We can provide VAPA self-developed water chillers.

# Shower Bucket

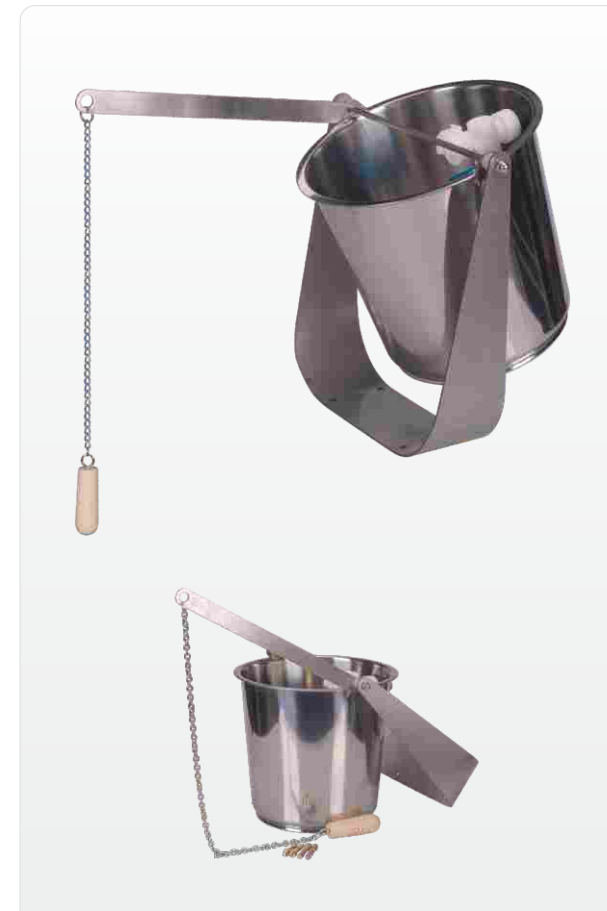

With the VAPA Waterfall Shower Bucket, when water cascades down like a flowing, vibrant curtain of a waterfall, it unlocks an immersive bathing experience for you. Its distinctive multi - hole water outlet design replicates the grandeur of a natural waterfall. The fine and dense streams gently wrap around your entire body, instantly whisking away fatigue and stress. Every shower feels like being in a secluded mountain haven, allowing you to savor the gentle caress of nature.
