## ◆ Freight Forwarder and Logistics Services

High Forwarders focuses on providing customers with international freight forwarding logistics and comprehensive port logistics. Mainly engaged in international air, sea, and rail import and export, we provide port to port and end-to-end international logistics services and professional logistics solutions.

(1) Air Freight : With nearly two decades of experience in international air freight, the products we handle cover automotive parts, electronic products, plant extracts, cemented carbide, anti-epidemic supplies, mechanical accessories, garment accessories, ATA exhibition goods, personal belongings, repaired items, and more.

As a core sales agent for multiple airlines such as CZ, K4, O3, CI, SQ, TK, MU, HU, CA, EK, QR, and ET, our routes span across the Americas, Europe, the Middle East, Africa, Southeast Asia, Japan, South Korea, Singapore, and India.

Recently, we have been focusing on the guaranteed space and volume commitment for air freight on pallets for the routes to LAX in the United States and to Japan.

(2) Sea Freight : With more than a decade of experience in international sea freight, we handle a wide range of products, including automotive parts, electronic products, plant extracts, construction machinery and its accessories, etc.

High Forwarders maintains close partnerships with shipping companies such as COSCO, ONE, Hapag-Lloyd, ZIM, CMA CGM, WANHAI, etc. We are able to provide Full Container Load (FCL) and Less than Container Load (LCL) services, covering door-to-port, port-to-port, port-to-door, and door-to-door services, as well as international multimodal transport services.

(3) Railway Freight: International railway combined transport has been another reliable transportation route in the past decade or so. Relying on the well-established domestic network that spreads across the whole country, we can receive and dispatch goods at any railway station nationwide, meeting the transportation needs of customers at different levels.

We provide FCL and LCL services via ports such as Alashankou, Horgos, Manzhouli, Erenhot, Pingxiang, etc. These services cover the railway transport between China and countries like those in Europe, the five Central Asian countries, and Vietnam, including door-to-port, port-to-port, port-to-door, and door-to-door services, as well as combined rail-sea transport services.
