LIGHT

DESIGNED
with
PURPOSE

Features

“ At **BRIMMEL** we feel we all should help to improve our world. We empower **innovation** by adding new technologies to everyday products. We are confident you will **enjoy** the use of our carefully manufactured high output solar lighting products as much as we enjoyed **designing** them.

BRIMMEL

Key Points

- » **smart product concept**
high quality solar panel | variety of functions
- » **well balanced range**
designs for various taste | choice in materials | wall & garden
- » **good value perception**
premium perception | private label price | strong promotions
- » **convenience at your fingertips**
local replenishment | exclusive models | follow the leader

Design patent

Material:
stainless steel + PC

Lampholder/Watt:
LED. 1.7W / 200lm

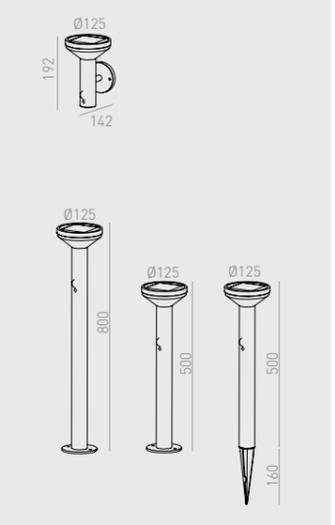

Solar Panel
0.88W, High efficiency monocrystalline solar panel.

1x1200mAh Li-ion / 3.7V (included)

Low-Medium-High switch
Long press 3s to start
A. After dark, 20lm permanently on
B. After dark, 20lm permanently on + change to 80lm when motion detected
After 25s, return back to 20lm .
C. After dark, 200lm when motion detected + off if no motion after 25s
Long press 3s to turn it off .

200lm 20lm	SMD incl.	3.7V-
SENSOR MAX 10±2M	~25 sec	110°
