About Us

Funtek[®] 丰泰科[®]
SINTERED STONE

At **Shanghai Fengyou Industrial**, we specialize in the art and science of sintered stone. As a professional integrated manufacturer, we manage the entire lifecycle—from innovative R&D to global sales—through our premier brand, **Funtek Stone**. We are dedicated to providing the global market with high-durability, high-performance materials that redefine modern living spaces.

Our Strategic Advantages

Top-Tier Chinese Manufacturing: Funtek is a leading player in China's high-end sintered stone industry, utilizing modern automated production lines to meet premium international standards.

Decades of Expertise, Global Vision: While our global expansion began in 2023, it is built upon years of deep manufacturing and project experience within the competitive Chinese real estate market.

Advanced Functional Slabs: We specialize in large-format, high-performance stones featuring antibacterial, heat-conductive, and corrosion-resistant technologies.

Core Value

To lead the industry through sustainable innovation and eco-friendly manufacturing, elevating "Made-in-China" to a global standard of quality.

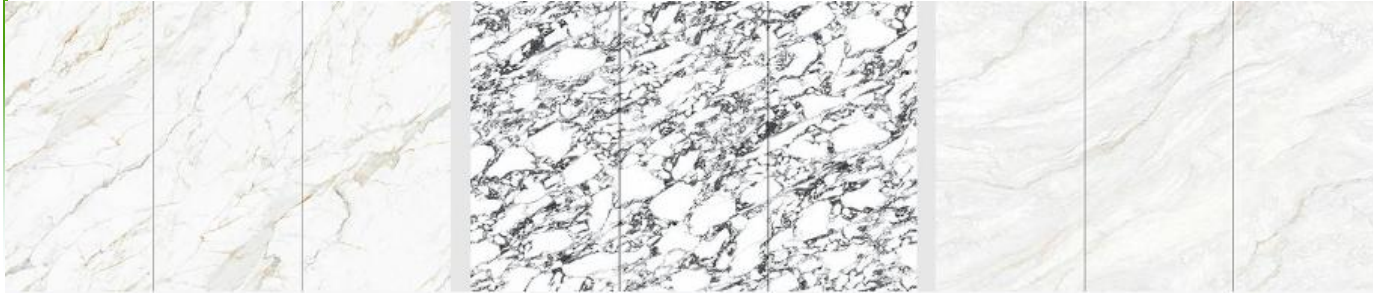

Product Portfolio: Dimensions of Excellence

Our products are engineered for versatility, offering a wide range of specifications to suit any architectural or interior requirement.

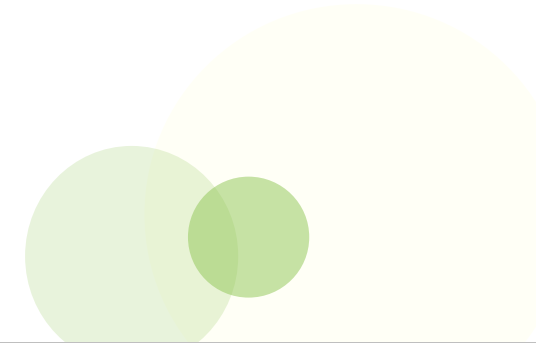

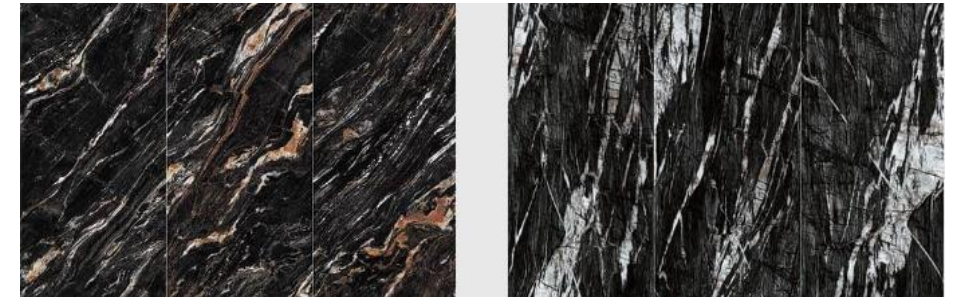

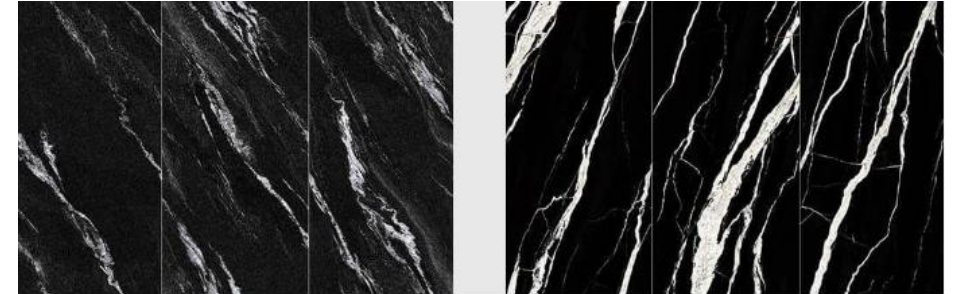

Format (Size)	Standard Thickness	Primary Applications
1600 × 3200mm	12mm/9mm	Top-tier commercial and large-scale residential spaces: Suitable for luxury hotel lobby backdrops, large shopping mall floors, and integrated kitchen and bathroom spaces in high-end villas, achieving a visually seamless and continuous feel.
1200 × 2600mm	15mm	The 15mm thickness provides extremely high structural strength, making it an ideal choice for kitchen islands, corrosion-resistant laboratory countertops, and high-end office desks.
900 × 1800mm	12mm/9mm	Universal for interior wall and floor finishes: Flexible specifications, ideal for living and dining room floors, bathroom walls with wet and dry separation, and public area decoration such as elevator lobbies in high-end residences.
1200 × 2400mm	9mm	Minimalist background walls and wainscoting: height adapted to standard floor height, requiring no extra cutting to serve as TV background walls, bedroom decorative panels, or hidden door panels, making construction convenient and efficient.
900 × 2600mm	9mm	Bathroom and Vertical Space: Designed specifically for vertical spaces, this panel can cover most interior wall heights with a single piece, reducing horizontal seams and creating a clean sense of vertical extension.

Products Summary

Size:1600*3200*9mm

Advantage

Advantage	English Description
<input checked="" type="checkbox"/> stability	Sintered stone offers excellent structural stability, resistant to warping or thermal expansion.
<input checked="" type="checkbox"/> Anti-fingerprint and scratch-resistant	Dense and non-porous surface resists stains and scratches, ideal for heavy-use areas.
<input checked="" type="checkbox"/> Zero penetration rate	Unlike natural marble, sintered stone has near-zero water absorption, perfect for wet zones.
<input checked="" type="checkbox"/> Environmental health	Made from natural minerals and fired at high temperatures, it's non-toxic and food-safe.

Advantage

Advantage	English Description
<input checked="" type="checkbox"/> Large specifications	Available in large formats (e.g. 1600×3200mm), minimizing seams and enhancing aesthetics.
<input checked="" type="checkbox"/> A variety of patterns	Offers diverse patterns—marble-look, woodgrain, concrete—allowing for design flexibility.
<input checked="" type="checkbox"/> Easy to maintain	Low maintenance—no sealing or waxing needed unlike marble; easy daily cleaning.
<input checked="" type="checkbox"/> Better value for money	More cost-effective than marble when considering installation and long-term maintenance.

Application

Heat-conductive and antibacterial surfaces for countertops, islands, and vanities

Bathroom

Kitchen

Application

Premium flooring and wall cladding

Bathroom

Flooring

Application

High-traffic office spaces, hospitality lobbies, and luxury retail environments.

Furniture&Table tops
