

STONEART CHINA
INTRODUCTION TO
MINE RESOURCES

Company Profile

StoneArt China was established in 2010, which our business covers the stone mining development,slab trading,digital finished products delivery and creative research and development of stone culture.Now we have more than 10 domestic and overseas stone species ownership and management rights.

Relying on own quarry resources, SA controls from the source and introduces digital production management system,ensuring the high quality and supply stability of stones.After more than a decade of dedicated operation, SA has now growing into a international standard quarry operator.
