做有深度的企业

今朝匠心营造·明日质赢未来

中国·明日电气有限公司是一家集产品生产、销售、服务于一体的综合性企业。公司坚持贯彻“以质量为中心，创行业之旗舰”的精神理念，发展及开拓市场。在创始人的带领下，先后与一系列国内高低压电气制造业中的佼佼者建立了长期良好稳定的合作关系，并在历经发展、壮大、整合三个阶段后适应市场发展。

本公司多年来通过不断的努力，为电力、化工、制造业、房地产建筑业等各行业用户提供着高效、便捷的电器产品与技术服务。用户的满意是对我们最大的认可。”节能减排“是行业发展的必然趋势，我们顺应趋势，以绿色制造开拓创新的积极姿态聚焦低碳经济，大力发展更环保，更智慧的电器产品为行业的转型升级提供助力。

本公司主要生产箱式变电站，电缆分支箱及开闭所，充气柜，环网柜，固体柜，环保柜，智能充电桩，预制舱，高低压成套等系列产品。我们在保证产品质量的同时并不断优化产品，用完善的售后服务体系等优势，迅速被市场广大客户认可及使用。并且公司始终坚持自主生产，让产品成本降低，性能更优越的信念，走访多个电气制造业，吸取优良经验，并结合市场实际需求，积极生产新型产品。

中国·明日电气有限公司始终将可持续发展理念贯穿于行业管理之中，坚持“科技化、产业化”的发展战略。对客户抱着严谨负责的态度，诚信经营，以质取胜，通过技术升级、管理创新等来实现企业的良性发展。努力朝着创建现代化企业迈进。

China-Mingri Electric Co., Ltd. is a comprehensive enterprise integrating product production, sales and service. The company adheres to the spiritual concept of “quality as the center, create the flagship of the industry” to develop and explore the market. Under the leadership of the founder, we have established long-term good and stable cooperative relations with a series of domestic high and low voltage electrical manufacturing industry leaders, and after three stages of development, growth and integration to adapt to market development.

The company over the years through continuous efforts for electric power, chemical industry, manufacturing industry, real estate construction and other industries to provide efficient and convenient electrical products and technical services. User satisfaction is our greatest recognition.” Energy saving and emission reduction” is the inevitable trend of the development of the industry, we comply with the trend of green manufacturing and innovation with a positive attitude focusing on low-carbon economy, and vigorously develop a more environmentally friendly, more intelligent electrical appliances for the transformation and upgrading of the industry to provide assistance.

Our company mainly produces box-type substation, cable branch box and open and close, inflatable cabinet, ring network cabinet, solid cabinet, environmental protection cabinet, intelligent charging pile, prefabricated cabin, high and low voltage complete sets of products. We guarantee the quality of products and constantly optimize the products, with perfect after-sales service system and other advantages, quickly recognized by the market customers and use. And the company has always insisted on independent production, so that the product cost reduction, superior performance of the belief, visit a number of electrical manufacturing industry, learn from the good experience, and combined with the actual needs of the market, and actively produce new products.

China - Tomorrow Electric Co., Ltd. has always been the concept of sustainable development throughout the industry management, adhere to the “scientific and technological, industrialized” development strategy. To customers with a rigorous and responsible attitude, integrity management, quality to win, through technological upgrading, management innovation to achieve benign development of enterprises. We are striving towards the creation of modernized enterprises.

精工·匠心

公司实施自检、互检、专检相结合“三检”制度

公司一直在不断创新,坚持让产品跟上时代的步伐,明日的技术团队经验非常足,产品设计以及产品创新上,明日力求完美,满足消费者不同的需求明日技术团队一直在努力。优秀的制造能力,专属的技术团队,不受制于人的技术,这才是明日电气不断强大的核心。配以成套的软硬件设施,已经形成了雄厚的制造实力。我们倾力专注现有产品,不断开发新产品,攻克技术难关。

The company has been constantly innovating, insisting that the products keep pace with the times, Mingri's technical team is very experienced, product design as well as product innovation, Mingri strive for perfection, to meet the different needs of consumers Mingri technical team has been working hard. Excellent manufacturing capacity, exclusive technical team, not subject to the technology of others, which is the core of the Mingri Electric continues to be strong. Equipped with complete sets of hardware and software facilities, has formed a strong manufacturing strength. We dedicate ourselves to focusing on existing products, continuously developing new products and overcoming technical difficulties.

优

每一份证书都是我们实力的体现

峥嵘岁月 数载辉煌
The great years, the glorious years.

专业 · 可靠

专业认证 铸就丰碑

荣誉与辉煌，我们用实力证明明天的跃发展，每十项殊荣，都伴随着我们的一步成长，但我们始终认为荣誉属于昨天我们拥有的成就只是给我们攀登新高峰的一个理由想要在激烈的行业竞争当中脱颖而出首先必须注重自身的实力和品质，只坚持质量，实力才会带来企业的辉煌只有卓越的品质才能更好的服务客户。

Honor and splendor, we use the strength to witness the leap of tomorrow's development, every ten awards, accompanied by a step of our growth, but we always believe that the honor belongs to yesterday's achievements we have just to give us a reason to climb new peaks want to be in the fierce competition in the industry to stand out and the first thing you must pay attention to their own strength and quality, only to adhere to the quality of the strength of the company's brilliance will bring only excellent quality to better serve customers. Only excellent quality can better serve customers.

实力承载品质 · 认证铸就丰碑

不锈钢电表箱

Stainless steel meter box

产品概述

不锈钢电表箱是一种广泛应用于电力计量与分配领域的重要设备。其箱体采用优质不锈钢材质，具备坚固耐用、防腐蚀、防锈、防水、防尘等特性，可有效抵御外界恶劣环境，确保内部电气元件的安全稳定运行。内部结构设计合理，能容纳电表及相关配件，为电能计量提供精准、可靠的环境，布线清晰有序，便于安装、维护和检修。

适用于各类居民小区、商业建筑、工业场所等，既满足了电力系统对电表集中管理的需求，又保障了用电数据的准确计量与传输，是现代电力基础设施中不可或缺的一部分，有力地推动了电力分配与使用的规范化和智能化发展，确保了电能供应的稳定与安全，为用户提供了便捷、高效的用电管理解决方案。

Product Overview

Stainless steel meter box is a kind of important equipment widely used in the field of power measurement and distribution. Its box body is made of high quality stainless steel, with the characteristics of durable, corrosion, rust, waterproof, dustproof, etc., which can effectively resist the harsh external environment and ensure the safe and stable operation of the internal electrical components. The internal structure is reasonably designed to accommodate meters and related accessories, providing an accurate and reliable environment for power measurement, with clear and orderly wiring for easy installation, maintenance and overhaul.

It is suitable for all kinds of residential districts, commercial buildings, industrial sites, etc. It not only meets the demand for centralized management of power meters in the electric power system, but also guarantees the accurate measurement and transmission of power consumption data, and is an indispensable part of modern electric power infrastructure, which vigorously promotes the standardized and intelligent development of electric power distribution and use, ensures the stability and safety of electric power supply, and provides users with a convenient and highly efficient power consumption management solution for the users.

JP 户外综合配电箱

Outdoor integrated distribution box

产品概述

JP 户外综合配电箱是集计量、出线、无功补偿等多功能于一体的，户外综合配电装置；集短路、过载、过电压、漏电等保护功能；体积小、外型美观、经济实用，安装于户外柱上变压器的电杆上，是城乡电网改造的新一代理想配电产品。

Product Overview

JP Outdoor integrated distribution box is a set of metering, out of the line, reactive power compensation and other multi-functional in one, outdoor integrated power distribution device; set of short-circuit, overload, over-voltage, leakage and other protection functions; small size, beautiful appearance, economic and practical, installed in the outdoor column on the transformer on the pole, is a new generation of urban and rural power grid renovation of the ideal power distribution products.

JP柜 综合配电箱

Comprehensive Distribution Box

产品概述

JP 柜 (综合配电箱) 是一种集多种功能于一体的电气设备，在电力分配与控制领域发挥着关键作用。其具有多样化的功能配置，涵盖了配电、计量、漏电保护、无功补偿等功能模块，能满足不同用户对于电力分配与管理的需求，有效保障电力系统的稳定运行和安全用电。在结构设计上，采用坚固的箱体外壳，具备良好的防护性能，可有效防尘、防水、防腐蚀和防止外力破坏，适应多种复杂的户外或室内安装环境，确保内部电气元件可靠运行。同时，内部布局合理，各功能区划分清晰，便于操作、维护与检修，提高了工作效率。JP 柜广泛应用于城乡电网改造、住宅小区、工矿企业等场所，是实现电力精准分配、节能降耗、提高供电质量以及保障用电安全的重要设备，对优化电力资源配置、推动电力系统的智能化和现代化发展具有重要意义，为各类用户提供了便捷、可靠、高效的电力综合管理解决方案。

Product Overview

JP cabinet (comprehensive distribution box) is a kind of electrical equipment integrating various functions, playing a key role in the field of power distribution and control. It has diversified functional configurations, covering power distribution, metering, leakage protection, reactive power compensation and other functional modules, which can meet the needs of different users for power distribution and management, and effectively guarantee the stable operation of the power system and safe use of electricity. In terms of structural design, it adopts sturdy box shell with good protection performance, which can effectively prevent dust, water, corrosion and external damage, adapt to a variety of complex outdoor or indoor installation environment, and ensure the reliable operation of internal electrical components. At the same time, the internal layout is reasonable, and each functional area is clearly divided, which is convenient for operation, maintenance and overhaul, and improves work efficiency. JP cabinet is widely used in urban and rural power grid renovation, residential communities, industrial and mining enterprises, etc. It is an important equipment for realizing the precise distribution of electricity, energy saving and loss reduction, improving power supply quality and guaranteeing the safety of electricity, and is of great significance in optimizing the allocation of electric power resources, and promoting the development of the intelligence and modernization of the power system. It is of great significance to optimize the allocation of electric power resources and promote the intelligent and modernized development of electric power system, and provides convenient, reliable and efficient solutions for comprehensive management of electric power for all kinds of users.

PZ30 照明配电箱 Lighting distribution box

产品概述

PZ30 照明配电箱适用于频率 50Hz, 额定电压 500V及以下, 负荷电流不大于 100A的单相及三相电路中, 作动力及照明、电动机控制对电路进行过载、漏电及短路保护。该箱设计合理、体积小, 外形美观, 使用安全可靠, 可广泛应用于工厂、大厦、住宅、商场等场所。

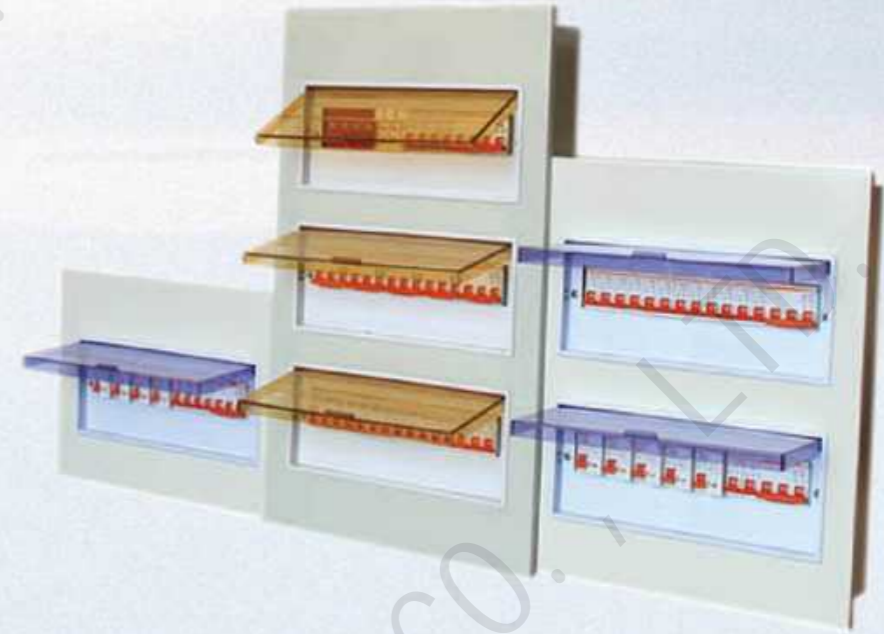

该产品符合GB7251.3《低压成套开关设备和控制设备、第三部分: 对非专业人员可进入场地的低压成套开关设备和控制设备—配电板的特殊要求》。

Product Overview

PZ30 lighting distribution box is suitable for single-phase and three-phase circuits with frequency 50Hz, rated voltage 500V or below, load current not more than 100A, for power and lighting, motor control for overload, leakage and short circuit protection. The box is reasonable in design, small in size, beautiful in appearance, safe and reliable in use, and can be widely used in factories, buildings, houses, shopping malls and other places.

The product complies with GB7251.3 "Low-voltage switchgear and controlgear, Part III: Special Requirements for Low-voltage Switchgear and Controlgear for Non-professionals with Access to the Site, a Distribution Board".
