关于我们 About us

广东汕棉轻工股份有限公司(以下简称汕棉轻工),是国家重点高新技术企业,国家级科技成果重点推广计划项目技术依托单位。

“汕棉轻工”以先进的机械制造技术,精密严谨的加工工艺和全方位的服务,赢得国内外业界的青睐和信任。

涂布机系列是汕棉轻工的主导产品之一,产品应用覆盖:水处理反渗透膜/纳滤膜涂布、电子产品领域的多种功能性涂布、离型纸/膜涂布、光学膜涂布、铝箔食品/药包材涂布、陶瓷印花纸涂布、碳酸钙(石头纸)石头纸涂布。

“汕棉轻工”有近二十多年的涂布装备制造经验和专业技术积累,技术力量雄厚,对各种不同材料和技术要求的涂布方式、干燥方式、张力控制方式等有着全面的技术储备和应用。

“汕棉轻工”的产品与多个行业中的知名企业合作案例,在业界有着较高的知名度,我们可以为您量身定制各种不同技术要求的涂布装备,为您提供最适合您的高端机器装备。

GUANGDONG SHANZHANG INDUSTRY CO.,LTD (Below referred to call Shanzhang) is the National key high-tech enterprises and the National key scientific and technological achievements promotion plan project technical support units.

Shanzhang's production has the advanced machinery manufacturing technical, rigorous processing technology and best services, which is popular in domestic and foreign industries.

Coating machine series is one of the main production of Shanzhang, it apply to Water treatment reverse osmosis membranes/ Nanofiltration membrane coating, Various functional coatings for electronic products, Release liner/film coating, Optical film coating, Aluminum foil food/pharmaceutical packaging coating, Ceramic calico paper coating, Calcium carbonate (stone paper) stone paper coating, etc.

Shanzhang has rich experience and technical accumulation in coating equipment manufacturing of more than 20 years, which with strong technical strength, it has comprehensive technical reserves and applications for various materials and technical requirements of different coating methods, drying methods, tension control methods etc.

Shanzhang's production with high reputation in the industry and has cooperated with a number of well-known enterprises in various industries. We can customize the coating machines for different technical requirements and provide the best high-end equipment for you.

反渗透膜浸渍涂布机
REVERSE OSMOSIS COATING MACHINE

应用领域：适用于反渗透膜涂布
Equipment use: Reverse Osmosis Coating
