

EZshine **Blue #3** Diamond Floor Maintenance Pads

Reliable for Robotic Cleaning

EZshine Blue Pads empower robotic fleets to clean and polish in a single pass, delivering a high-gloss finish that outperforms traditional brushes or pads.

Through a water-only cleaning process, they drastically cut operational costs and labor.

Grit: 1500	Sizes: 4"/100mm-27"/685mm
Color: Blue	Package: 5 PCS/Case
Abrasive: Industrial diamond particle	
Fiber Type: 100% recycled polyester & animal hair	

High Efficiency

Advanced diamonds remove scratches and stubborn stains in one single pass and minimize downtime and pad changes.

Superior Performance

It cleans and polishes simultaneously to deliver a consistent "wet-look" finish that outperforms traditional pads.

Green Cleaning & Cost Savings

Lower total costs with water-only operation or maximize efficiency with chemicals when needed. This green cleaning process frees up labor for higher-value tasks.

SAVE YOUR LABOR
