

Diamond Pads Empower Robots

Increase the ROI of Your Cleaning Robots

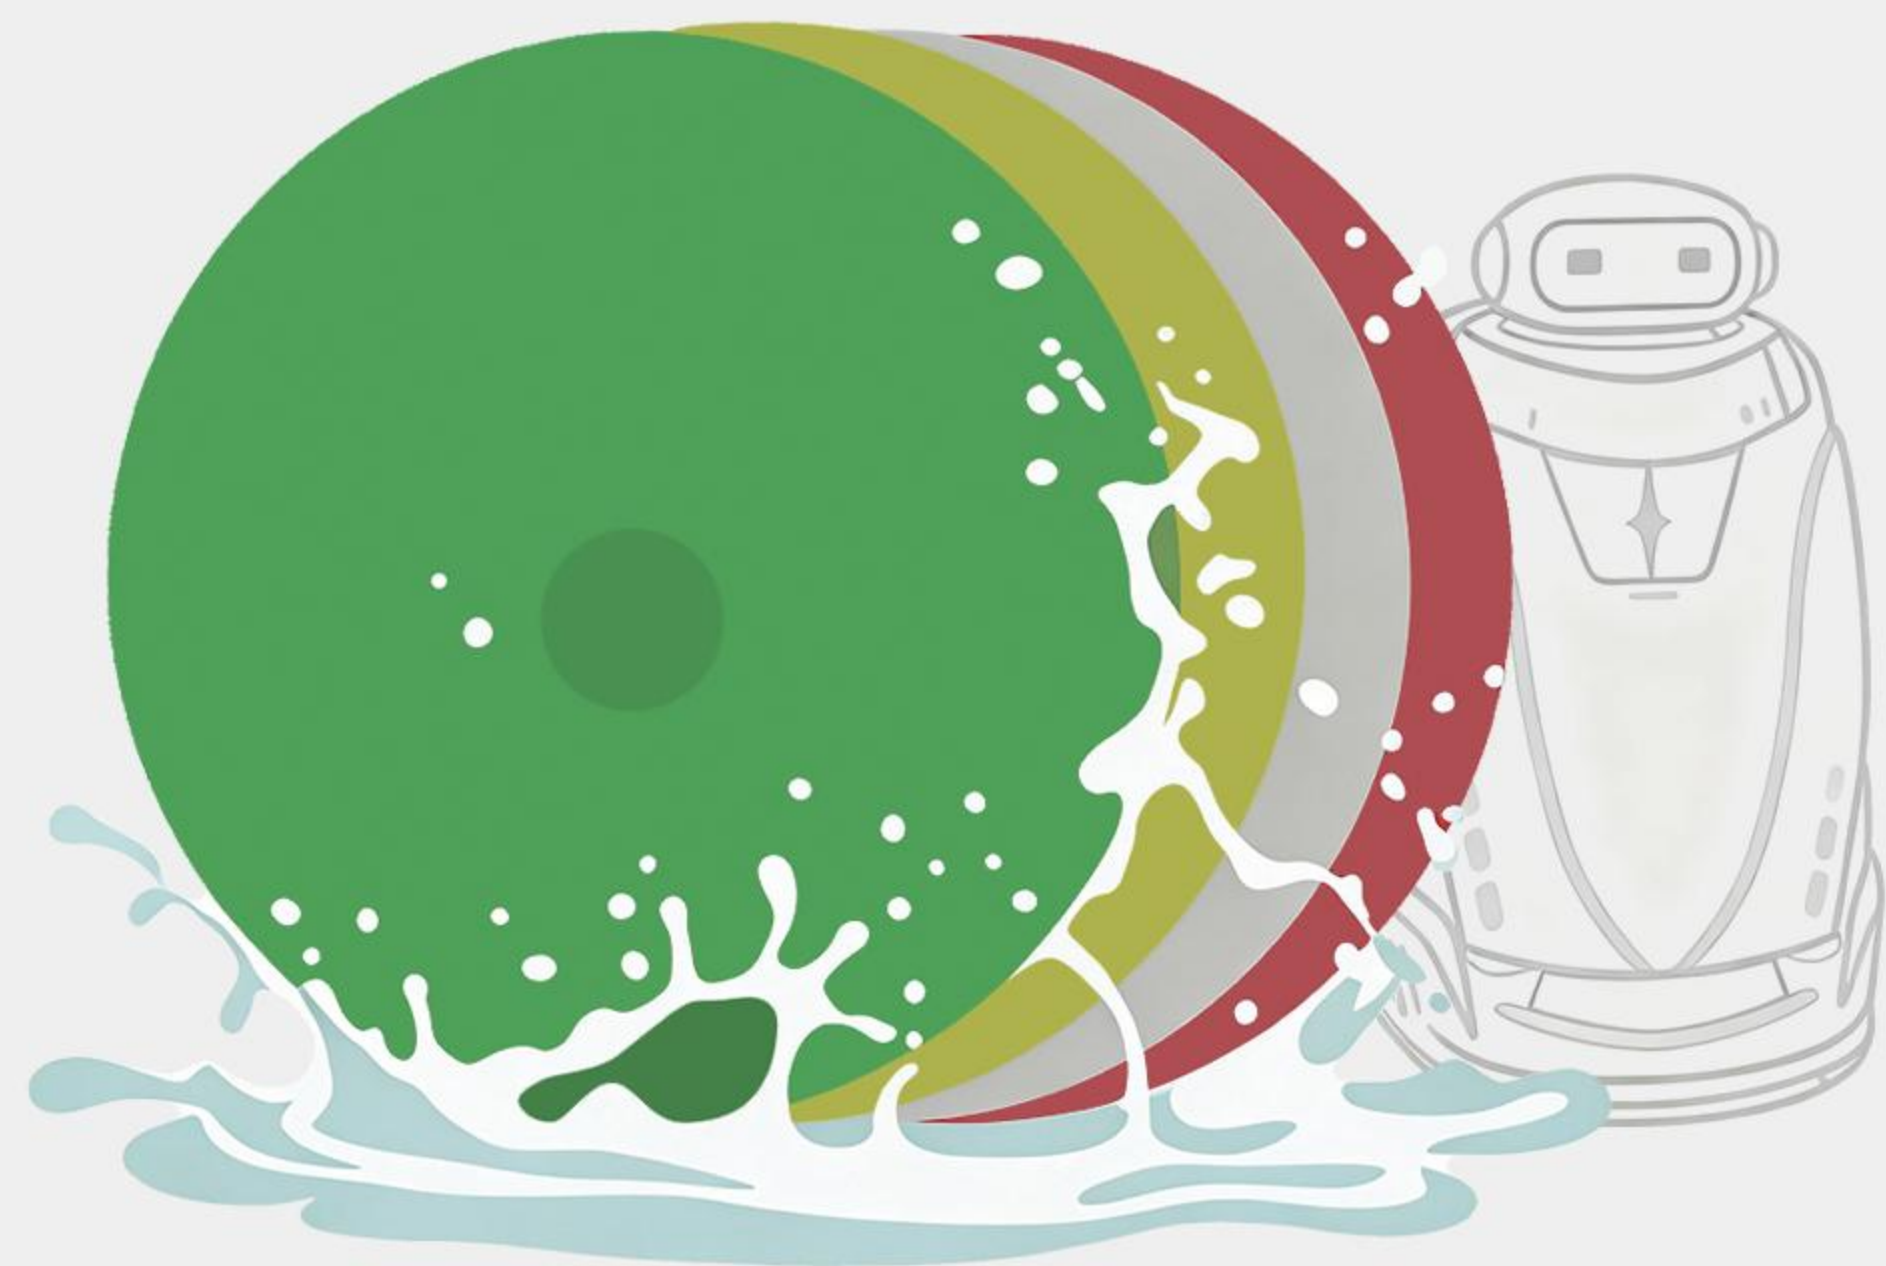

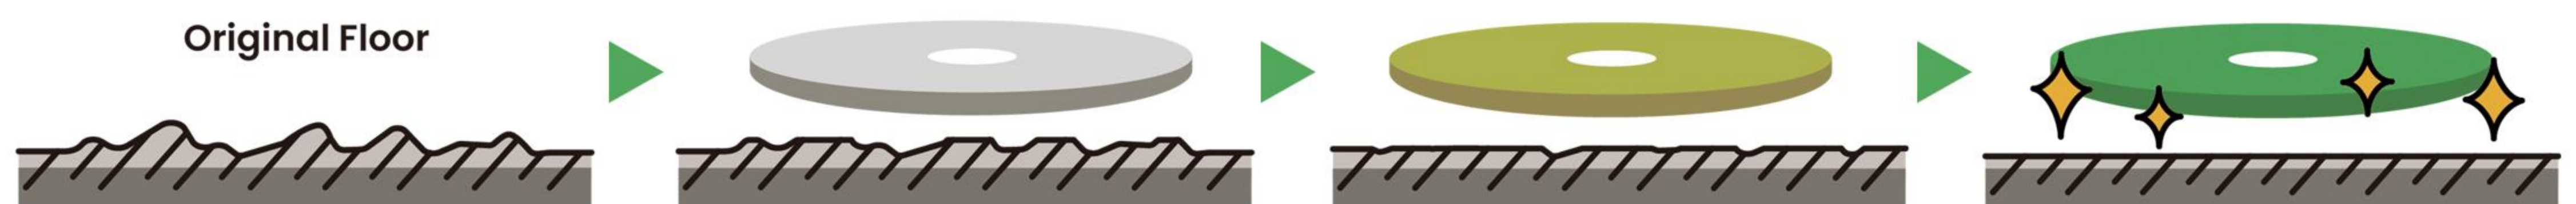

- **Clean & Polish**
Simultaneously cleans and polishes, saving time and labor.
- **Durability & Efficiency**
Engineered for extreme durability, maximizing robotic uptime.
- **Green Cleaning**
Less chemicals, lower costs, greener floors.

WHY CLEANING ROBOTS NEED DIAMOND PADS?

How Diamond Pads Work

Diamond abrasives gently level micro-peaks while truly refining the floor surface – delivering a clean & shine finish.

Water-Only. Maximum ROI.

Eliminate the chemical usage & cost.

- 100% Eco-friendly: Achieve a superior shine using only water.
- Cost Savings: Less purchasing, storing, or mixing of chemicals.
- Floor Life Extension: Dramatically reduce cost per square meter while protecting floors from chemical wear.

A Greener Future for ESG

100% Recyclable. 100% Responsible.

- Minimal Carbon Footprint: Crafted from fully recyclable materials to minimize environmental impact.
- ESG Compliance: Effortlessly meet corporate sustainability goals with minimal chemical operations.
