

EZshine EZstrip #0

EZstrip #0 is designed for heavily worn and scratched floors where restoration or stripping is required. Its coarse diamond structure helps reduce and remove heavy scratches or old coatings, leaving the floor ready for subsequent restoration steps.

It provides a labor-saving mechanical stripping solution that can help reduce the need for chemical strippers. EZstrip #0 is suitable for removing worn coatings, wax residues, stubborn stains from floors such as VCT, linoleum, concrete, terrazzo and homogeneous ceramic tiles.

After treatment, the floor is left with a clean, even matte surface ready for further refinement.

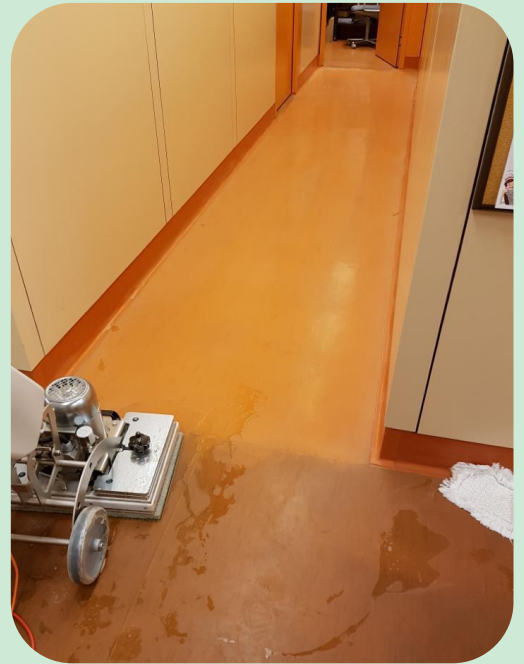

When cleaning daily with EZshine EZstrip #0 you will experience

- Available for all types of floors.
- Natural hair and fiber in our pads comes from 100% post-consumer and industrial recycled waste material.
- Chemical-Free. Clean with water only.

EZshine EZstrip #0

Diamond Pad

Product Specifications

Description

EZstrip pad is a diamond-impregnated floor pad used for removing heavy scratches, floor seal, old wax, stubborn stains. Leave a clean and well-prepared surface.

Properties

PROPERTY	VALUE
Grit	200
Thickness	1"/2.54cm
Weight	11 osy 373 gsm(without impregnation)
Fiber Type	100% recycled polyester and natural hair
Binder Application	Spray
Abrasive Application	Spray
Abrasive	Industrial diamond grit
Color	XXRed
Pack	5 per case

Construction

Made of 100% recycled natural hair and fiber and 100% water based latex resins. Floor pads are designed to be used on one side. Open construction resists loading and clogging.

Packaging and Marking

Each carton shall be labeled to identify the contents by product name, size, quantity and manufacturer. Each pad shall be printed with the product name.

Applications

Designed as the first step in heavy-duty floor restoration and stripping with auto-scrubbers, single-disc machines, and orbital floor machines. Recommended for terrazzo, polished concrete, homogeneous ceramic tile, LVT, VCT, rubber, epoxy, marble, limestone and artificial stone. The 200-grit diamond surface helps remove heavy scratches, worn coatings, sealers, wax residues, and severe surface imperfections, creating an even matte surface ready for subsequent restoration steps.

Directions for Use

- Dry mop the floor to reduce the wear to EZshine pad, as well as the floor.
- Mount the EZshine pad on the pad holder. Position the pad so the printed-text side faces toward the machine, and the colored working side faces the floor.
- Fill the tank with water. You are now ready to clean the floor.

Environment Commitment

Natural hair and fiber in our pads comes from 100% post-consumer and industrial recycled waste material.

Size Available

From 4"-27" (100mm - 685mm) diameter.
