

EZshine Red #1

Red #1 is designed for deep cleaning and floor restoration, helping remove heavy scratches. It leaves a clean and uniform matte finish, well prepared for the following refinement steps.

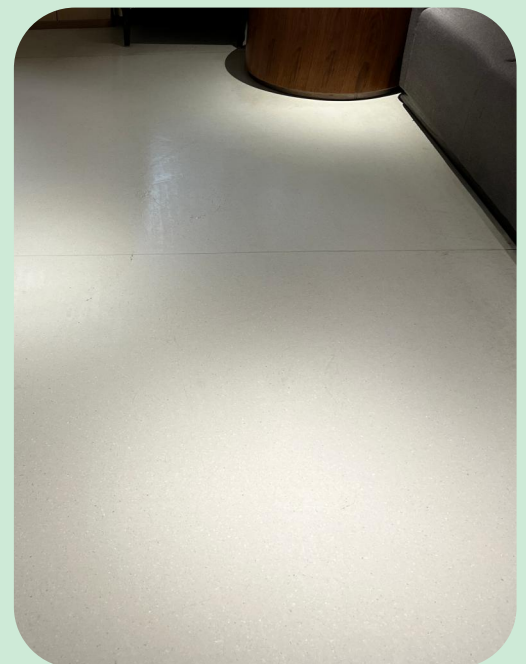

In the EZshine Standard Kit, Red and White pads are designed for restoration and surface refinement, while Yellow and Green pads are used for daily maintenance and gloss enhancement.

Red #1 provides an efficient mechanical restoration solution for various floor types, helping restore a more even and clean appearance before progressing to finer grits.

When cleaning daily with EZshine Red #1 you will experience

- Available for all types of floors.
- Natural hair and fiber in our pads comes from 100% post-consumer and industrial recycled waste material.
- Chemical-Free. Clean with water only.

EZshine Red #1

Diamond Pad

Product Specifications

Description

EZshine Red #1 is a diamond-impregnated floor pad designed to remove deep scratches and tough stains, producing a clean matte surface. The floor is left clean and properly prepared for subsequent finishing steps.

Properties

PROPERTY	VALUE
Grit	400
Thickness	1"/2.54cm
Weight	11 osy 373 gsm(without impregnation)
Fiber Type	100% recycled polyester and natural hair
Binder Application	Spray
Abrasive Application	Spray
Abrasive	Industrial diamond grit
Color	Red
Pack	5 per case

Construction

Made of 100% recycled natural hair and fiber and 100% water based latex resins. Floor pads are designed to be used on one side. Open construction resists loading and clogging.

Packaging and Marking

Each carton shall be labeled to identify the contents by product name, size, quantity and manufacturer. Each pad shall be printed with the product name.

Applications

Designed for deep cleaning and floor restoration with auto-scrubbers, single-disc machines, orbital floor machines, and AMR cleaning robots. Recommended for terrazzo, polished concrete, homogeneous ceramic tile, LVT, rubber, epoxy, marble, limestone and artificial stone. The 400-grit diamond helps remove heavy scratches, leaving a clean and uniform matte finish ready for the following refinement steps.

Directions for Use

- Dry mop the floor to reduce the wear to EZshine pad, as well as the floor.
- Mount the EZshine pad on the pad holder. Position the pad so the printed-text side faces toward the machine, and the colored working side faces the floor.
- Fill the tank with water. You are now ready to clean the floor.

Environment Commitment

Natural hair and fiber in our pads comes from 100% post-consumer and industrial recycled waste material.

Size Available

From 4"-27" (100mm - 685mm) diameter.
