About EASYWAYPACK

EASYWAYPACK is a professional food packaging manufacturer, integrating R&D, production, sales, and technical services.

We mainly produce the co-extrusion blown film, which is including EVA shrink film/bags, thermoforming top & base film, embossed vacuum film/bags, high-temperature retort film/bags, as well as various conventional and unconventional films/bags to meet different application requirements.

Minimizing food waste and expanding adaptability across various applications are our constant goals. We are committed to becoming a trusted global partner in the food packaging industry.

Retort Film

Applications:

Packaging suitable for food steaming and boiling requirements

Product Details

(1) Size Range:

Length: Custom based on thickness

Width: 440–1070mm

Thickness: 80μm–300μm

(2) Film Structure:

Symmetrical or Asymmetrical structures available.

(3) Product Features:

High clarity, flexibility, and excellent freeze resistance.

(4) Materials : PA/PP, PA/PE

EASYWAYPACK

Pouch-Making Film

Applications:

Universal application for various packaging types.

Product Details

(1) Size Range:

Length: Custom based on thickness

Width: 440–1150mm

Thickness: 60μm–300μm

(2) Film Structure:

Symmetrical or Asymmetrical structures available.

(3) Product Features:

High clarity, flexibility, puncture resistance, and freeze resistance.

(4) Materials : PA/PP, PA/PE
