

5-7TH Scrap PET bottle balers NKW125BD

Specialized in recycling and compressing the loose materials like plastic film, PET bottles/Pet bottle balers, plastic pallets/plastic balers, waste paper/waste paper balers, cartons, cardboards trims/scraps, etc.

- Nick Baler Heavy duty close-gate design for more tighter bales
- Hydraulic locked gate ensures more convenient operation
- Hydraulic balers can feed material by conveyor or air-blower or manual.
- PLC control system, It Can automatically inspection feed, it can press to front end each time and available for manual bunch one-time automatic push bale out and so on process.

Model	NKW125BD
Hydraulic power	125Ton
Cylinder size	Ø250
Bale size (W*H*L)	1100*1250*1700mm
Feed opening size (L*W)	2000*1100mm
Bale density	400-450Kg/m ³
Capability	5-7T/hour
Bale line	5Line /Manual strapping
Power	30KW/40HP
Out-bale way	Disposable bag out
Bale-wire	10#*7PCS
Cooling system	Cooling Fan
Feeding Device	cyclone / conveyor
Machine weight	18000KG

Plastic bottle horizontal balers use hydraulic cylinders to compress materials, during the working process of the baler, the rotation of the motor drives the oil pump to extract the hydraulic oil from the oil tank. then it is transported through hydraulic oil pipes and sent

Shaanxi Nick Machinery Equipment Co.,Ltd

Address: East Qunsheng Road Wuxi City, Jiangsu, China

to each hydraulic oil cylinder, driving the piston rod of the oil cylinder to move longitudinally, compressing various materials in the material box.

We are professional hydraulic baler manufacturer in china for 21years ,we are mainly produce the hydraulic balers, hydraulic baling machine, paper balers, metal balers, scrap metal shears, metal balers, scrap metal balers, horizontal waste paper balers, waste plastic balers, cotton packing Machine, chemical fiber strapping machine, fiber strapping machine, straws straw strapping machine, metal crushing machine, four column hydraulic machine, metal crusher, crumb cake machine, metal unpacking machine, gantry shears, metal unpacking machines and so on dozens of varieties of hydraulic mechanical. if you have any interesting or need ,kindly feel free to contact us ,thanks
