

Double chambers clothes Balers(Belt conveyors)

NICK Used Clothes Balers widely used for compression packaging of various garments such as cloth, textiles, sweaters, shirts, sweaters, underwear, socks, and export garments.

All doors of the used clothes balers equipment can be opened, and the packing is convenient. Our baling machine adopts hydraulic manual control. It has the characteristics of hydraulic baler is simple operation, high packing efficiency, low investment cost, and multiple selection of pressing plate stroke parameters.

The ideal effect can be achieved by selecting the pressing plate stroke for compressing various garments. The inner box can be made of stainless steel, which saves manpower, improves labor efficiency, reduces labor intensity, and reduces transportation costs

Model	NK-T120S
Hydraulic power	120Ton
Bale size (L*W*H)	1400*1200*800mm
Feed opening size (L*H)	1400*1200mm
Chamber Size (L*W*H)	1400×1200×1820 mm
Bale weight	400-500Kg
Capacity	20-25 bales/H
System Pressure	25Mpa
Packing materials	Cross packing
Packing way	Front-Back 8 cps/ Left-Right 4 cps
Voltage (can be customized)	380V/50HZ
Power	45KW/60HP
Machine size (L*W*H)	4800*2200*5600mm
Weight	22000Kg
