

NK080T120 PET Bottles Hydraulic Balers

Huge amounts of plastic bottles and soft plastic items, such as bubble wrap, zip locks, trash bags, tarp, grocery bags, cereal box liners, and so on come in various shapes, sizes, and colors are disposed every day.

From the economic and environmental viewpoints, recycling plastic waste is imperative. Plastic baler machines greatly improve the efficiency of plastic recycling.

A plastic baler will compress the plastic waste into compact bales that are easy to deliver to the recycling plant for further processing. A baler can compress the plastic waste into the required bale size and weight.

Features :

1. This Plastic Balers machine/Press Compactor uses the equipment of two-cylinder balance compression and special hydraulic system which make the power more stable.
2. The high load structure of hydraulic balers , automatic turn bag set, makes it safe and reliable.
3. The way to open the door in the right angle make it pack be cross for recycling of baling press machine
4. The baling press machine is suitable for the compression and packing of rigid plastics, computer outer covering and related materials, for recycling .

Model	NK080T120
Hydraulic power	120Ton
Packaging size (L*W*H)	1000*800*500-1000mm
Feed opening size (L*H)	1000*500mm
Chamber Size (L*W*H)	1000*800*1500
Capability	3-6/hour
Bale weight	350-500Kg
Voltage	380V/50HZ
Power	15KW/20HP
Machine size (L*W*H)	1700*1400*3350mm
Weight	4500Kg

NickBaler , As a Hydraulic Baler Manufacturer , Supply vertical Baler , Manual baler , automatic Baler, produce this machine main function for reducing transport cost and easy storage , reduce labor cost . we have over 150 models , can offer you good quality and best service for you , welcome to inquiry ...
