Order Service & SCM Source

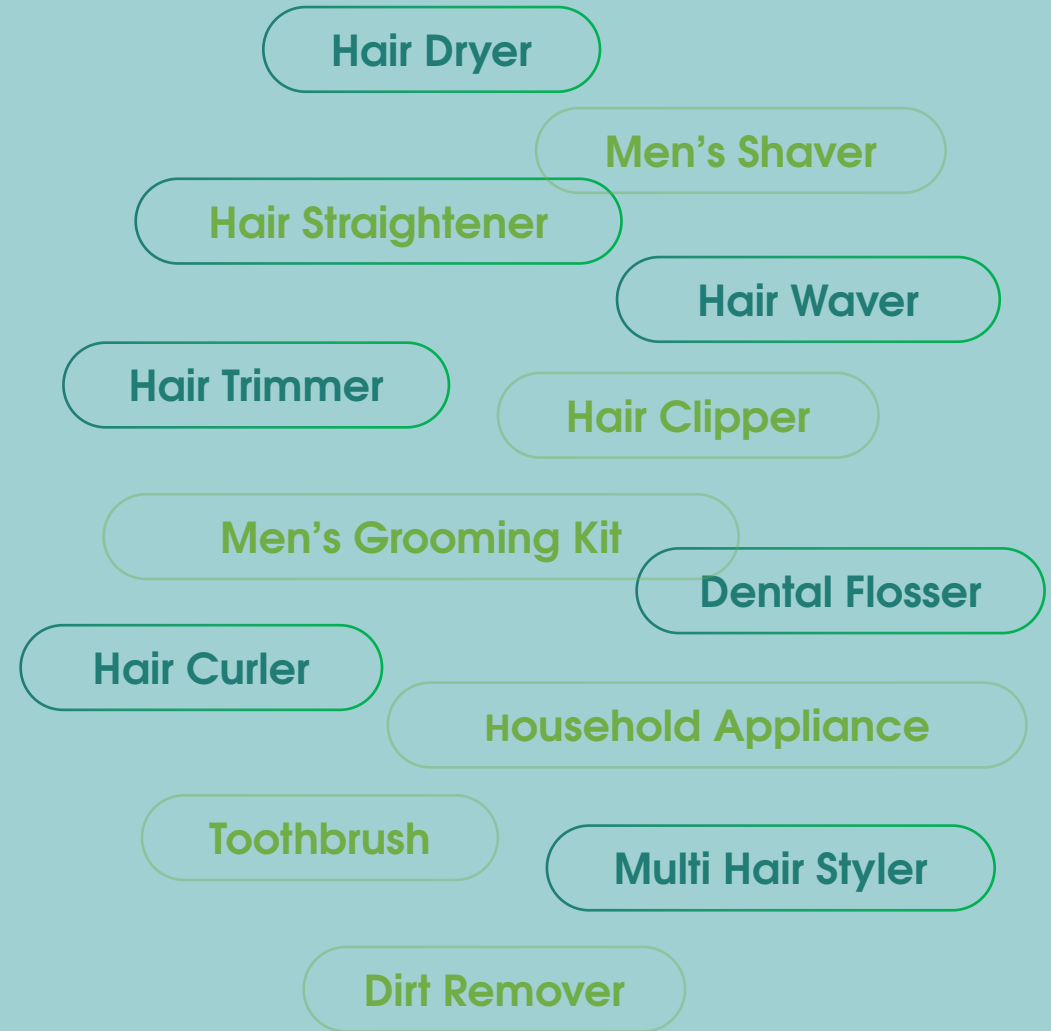

HYCKON uses a five-tier management system to evaluate suppliers based on their manufacturing capabilities, ensuring the selection of qualified suppliers to meet diverse client needs.

We align supplier delivery capabilities with customer purchasing habits, guaranteeing timely delivery of high-quality products and enhancing overall satisfaction.

For single-item purchases, Hyckon provides personalized one-on-one supplier matching and free intermediary services, facilitating seamless transactions for buyers.

Hyckon's 9+1 pricing model offers one zero-profit item for every ten selected products, ensuring transparency and value with supplier contracts open to customer oversight.

Infrared Ray Hair Straightener

- 1) Floating ceramic coating plates
- 2) Ionic function
