COMPANY PROFILE

Zhejiang Trynew Industry Co., Ltd. is a leading manufacturer of safety plumbing & electrical home improvement products based in Hangzhou Lin'an, China, which is close to the ports of Shanghai and Ningbo and has convenient transportation. With nearly three decades of experience, TRYNEW specialize in research, development, production, channel building and sales of high-quality plumbing & electrical products and solutions.

Our commitment to safety is evident in our focus on fireproof wires, switches & sockets, valves & fittings, lamps & illuminates and various appliances. Our mission to become a national advocate for safe home installation consumption. Backed by numerous certifications such as ISO9001, ISO45001, ISO14001, CCC, CE, RoHs, UL and more than 20 patents, we offer innovative products that meet and exceed the highest industry standards and OEM, ODM services, and also brand distribution business.

We have built a strong nationwide network of more than 800 dealers, 3,500 secondary distributors, and 100,000 installation professionals, ensuring widespread availability and expert support. Our "Altruistic Symbiosis" business philosophy has driven consistent growth and established us as a trusted partner.

Looking ahead, we are expanding our range of home improvement products and increasing our market share. Leveraging advancements in Internet technology and our channel building capacity and influence, we aim to create a comprehensive, one-stop procurement service platform for our partners, to address dealers' challenges in product sourcing, purchasing, selling and foster cooperation for mutual success.
