	Release date: 3/1/2016		Approved: A Valdevitt

NC7.13 a welding machine power cord used for soldering tin and copper used ordinary flexible wires. The conductor cross-sectional area and insulation layer of ordinary flexible wires may not meet the high current load requirements of the welding machine.		NC7.9 the eye wash station was installed inside the toilet and there was no text or graphic sign indicating "there is an eye wash inside" posted at the entrance of the toilet,
